women for their study and action in the near future.

She discussed the problem of immigration legislation and declared that the biological aspect of immigration is most important "because we must assimilate, then Americanize immigrants." She said that the effect on American stock of assimilation of "aliens of inferior stock and of different racial habits," must be considered in drafting such legislation. "We must consider our own interests first before we enter upon a philanthropic saving of Europe," she said.

Other bills for which she asked the support of the federation, included a bill to regulate child labor, one for the establishment of a federal department of education and public welfare, and one to amend the constitution to permit congress to enact a regulatory marriage and divorce law. The federation also will seek for the establishment of a federal prison for women.

Mrs. M. D. Capen, of Florida, of the legislation department, recommended that enforcement of the law should be placed in the hands of civil service appointees. She pointed to the satisfactory enforcement of anti-narcotic and other laws by civil service employees, with a minimum of undesirable scandal and publicity.

Speakers at Night.

Other speakers on the night program included Mrs. W. R. Alvord, of Detroit, Mich., who spoke on "Citizenship Training," and Mrs. J. C. Pearson, of Marshall, Okla., whose subject was "Americanization."

The Girls' Glee club, of the senior class of the Georgia State College for Women at Milledgeville, sang the state song, "Georgia Land," at the opening of the night session, following it with Kipling's "Recessional." Solon Drunkenmiller, tenor, and Mrs. W. O. Cheery, soprano, each sang three delightful songs, with Mrs. Charles Chalmers at the piano.

The musical program for the convention is being directed by Mrs. Mary Oberdorfer, of Chicago, chairman of the music department.

The press dinner given at the Woman's club Tuesday night, was attended by one of the most brilliant gatherings of fourth estate notables ever entertained on one occasion in the south. Editors and associate editors of nearly all the larger national women's magazines were present. The dinner was given with the local press as hosts and hostesses and was enjoyed by a number of three-minute talks.

The Tuesday afternoon session of the council, held as all business sessions, at the Baptist Tabernacle, was marked by talks in two departments of the federation work.

The first part of the session was given over to the department of "press and publicity" and was conducted by Leslie Stringfellow Read, chairman of the department and managing editor of a daily paper at Fayetteville, Ark. "Woman's Place in Sun,"

Mrs. Read, opening her short talk, stated that "woman's place is in the sun." She declared the day of the "halfback wife" had passed and that one of the chief reasons for publicity was that woman might leave her shadowed life and "get into the sun." She said that while the spoken word reaches millions, the printed word reaches millions and urged the club women to aid their district and state press chairman in seeing that accurate and full reports of their matters concerning them are supplied to the only press and magazines.

She referred in her speech to Mercer university, as the only university in the world which makes a compulsory course in journalism a compulsory course. She gave high praise for the publicity given by the Georgia papers to Georgia clubwomen, and said that "talking newspaper publicity in Georgia is like talking coals to Newcastle."

Miss Elizabeth Toms, associate editor of "Good Housekeeping," spoke on "Cultivating Editors." She advised the club women, before they tried to send anything to their local papers for publication, to learn the correct names of the editors and women's

staff writers. She lauded the splendid publicity given through the woman's pages conducted by many of the papers of the country.

Mrs. A. S. Richardson There. Mrs. Anna Steese Richardson, who conducts the "Good Citizenship" page in the Woman's Home Companion, spoke briefly. She was found in her praise of Mrs. T. G. Winter, president of the general federation, as a writer, and said that the articles she had contributed to her magazine would have been high lights in the editorial history of the year, even had Mrs. Winter been unknown, and not president of the federation.

Mrs. William Brown Maloney, editor of The Deliberator, in her remarks stated that the time is past when women's efforts are a subject of ridicule in the press. She told how her paper was offering \$2,500 in prizes this year to the reporters of the nation's press who wrote the best stories dealing with women's work and activities. This prize money is to be awarded on the judgment of the school of Journalism of Columbia university, N. Y., and Mrs. Winter.

Ida Clyde Clark, associate editor of Pictorial Review, urged that the sex line be eliminated in judging the news value of stories.

Mrs. Robert Burns Parker, of the Woman's News Service, of New York, voiced a plea for truth and accuracy in news reporting and told something of the work her organization is doing.

According to a program adopted at the morning session, and presented by Mrs. Winter, the policy of the clubwomen in politics will be to back measures and not men, to keep clear of partisan politics and to support candidates on a basis of fitness and merit.

The morning session was marked by reports of national officers and committee chairmen, and by two o'clock, Mrs. Winter, the policy of the clubwomen in politics will be to back measures and not men, to keep clear of partisan politics and to support candidates on a basis of fitness and merit.

Mrs. Winter. "There is the partisan element and that seeking worthwhile legislation. The sentiment of the executive committee is opposed to the former but heartily in favor of the latter."

"If a political issue lies between a man and a woman the executive committee urges you to consider fitness and not sex."

Mrs. Winter also explored the federation not to use the machinery of their organization to further petty or partisan political aims.

Reports of national officers and committee chairmen showed the federation to be in a flourishing condition and with even better prospects for the coming year.

One of the featured reports of the morning was that of Mrs. Florence C. Floore, of Texas, treasurer. Mrs. Floore reported the treasury in excellent condition with funds amounting to \$250,000 on hand on May 3.

She reported that seven additional states have taken out universal membership—that is, clubwomen contribute ten cents per capita to the general federation—and urged that other states adopt that membership as a means of increasing the revenue of the federation.

She also reported on the war service, endowment, permanent headquarters and general funds of the federation, showing substantial amounts in each department.

The report of Mrs. E. C. Ruppert, of Indiana, chairman of membership, showed 763 clubs have been admitted to the national federation since the last biennial in Chattanooga. Of this number, 39 were Georgia clubs, while Kentucky showed the largest number, with 194. One of the new clubs is at Hilo, Hawaii.

The federation voted to send a telegram of sympathy to Mrs. Mary G. Hay, of New York, chairman of resolutions, who is prevented by illness from attending the bi-annual. Her duties have been taken over by Mrs. Edward Franklin White, of Indianapolis, chairman of legislation.

Financial Report Made. Mrs. Gilbert Davis, of Vermont, read the report of the finance com-

mittee, and Mrs. Wallace Perham, of Montana, reported on investments made by the federation.

Mrs. H. S. Godfrey, of Minnesota, corresponding secretary of the federation, reported 333 applications for club memberships with five resignations during the year. She reported that during the year she had compiled forty-five complete lists of officers and committee members.

Mrs. J. E. Hays, of Montezuma, Ga., recording secretary, said that all the minutes had been compiled and placed in permanent bound volumes.

Glass May Not Attend. Senator Carter Glass, of Virginia, who has been expected to speak before the federation on Friday, has written that it is very uncertain whether he will be able to fill the engagement or not.

Senator Glass is suffering with a severe cold, which has developed into sore throat and is only able to speak with great difficulty. His physician, however, is working hard to get his throat in shape so that he may be able to keep his engagement, but at the present this is extremely doubtful.

The program for Wednesday, like that of Tuesday, includes three sessions. The morning meeting at the Tabernacle, beginning at 9:15 o'clock, will be devoted to the department of applied education, and be led by Mrs. John D. Sherman, of Estes Park, Colo., chairman. Dr. E. C. Ball, director of chemical research of the United States department of agriculture, will speak on "The Relation of Research to the Problems of the Home."

In the afternoon a number of vital and timely topics will be discussed, and the department of international relations will make its reports and recommendations.

This session will be followed by auto rides and tea given by the Joseph Habersham chapter, D. A. R.

A dinner at 6 o'clock will be given at the woman's clubhouse, with the board of the Georgia state federation as hostesses, to the officers, board of directors, state presidents and departmental and division chairmen of the general federation.

The evening session will be devoted to the department of fine arts, of which Mrs. Rose V. S. Berry, of Berkeley, Cal., is chairman.

Program for Today. The program for today is as follows:

the West End Junior High school, and Miss Laura Jeter, formerly of the faculty of the Atlanta Normal and Training school, as assistant principal.

Appointment of L. O. Kimberly, formerly of Commercial High school, as principal of the Ivy Street High school, and Miss Hannah Wilkes, former head of the department of commerce at Commercial High school, as assistant principal.

Owing to the removal of the Atlanta Normal and Training school from Lee street to the Faith school, which necessitated the transfer of the latter school, its principal, to the latter school, Miss Laura Wood, former principal at Ivy Street school, was appointed as principal of the Lee Street institution.

Miss Laura Graham, former principal of the Goldsmith school, was elected to succeed Miss Wood at the Ivy Street school; Mrs. Arthur Pew, former principal of the Ivy Street school, was elected principal at the Goldsmith school; R. B. Whitworth, former assistant principal at Fair Street school, was elected principal of that school; and Miss Maud Rhode, former assistant principal of the Grant Park school, was elected principal of the Whiteford Avenue school.

Twenty-eight graduates of the June, 1922, class of the Atlanta Normal Training school were elected probationary teachers and will be assigned as supernumerary teachers in the various grades during the next term, it was stated.

Names Are Changed. At its same session the board, upon recommendation of a special committee, voted to change the name of the Woodrow Wilson Junior High school, to the Joseph E. Brown Junior High school west, in honor of former Governor Joseph E. Brown, Georgia's war-time chief executive. It was also voted to honor the late Daniel C. O'Keefe, of Atlanta's representative citizens and first councilman who introduced the resolution in council of 1883 creating the public school system locally, by naming the Junior High school northwest, the "Daniel C. O'Keefe Junior High school, northwest."

The change in the name of the Woodrow Wilson school to the Joseph E. Brown school, was requested of the board recently in a communication from the Atlanta chapter, J. O. T. A. M., which stated that none of the local schools should be named in honor of any living person, but should be used in glorifying the memory of famous departed citizens.

Mr. O'Keefe was the father of Mrs. Julia O'Keefe Nelson, board member from the sixth ward, who is now serving her third term in that body.

Following are graduates of the Atlanta Normal Training school for teachers, who were elected as probationary teachers:

Street Railways In Birmingham Reduce Rates

Agreement Contingent on
City Adopting Stringent
Jitney Regulations.

Birmingham, Ala., May 8.—Under an agreement reached today between the city of Birmingham and the Birmingham Railway, Light and Power company, street car cash fares were reduced from eight to seven cents and ticket book fares were reduced from 62 1/2 cents to 6 cents. A two-cent charge for transfers remains in the new contract which dates over a period of three years.

The agreement was contingent upon the city adopting stringent regulations for jitneys which haul passengers for hire. Under an ordinance adopted, which is made an exhibit in

the contract, jitneys are prohibited from traversing streets on which cars operate or upon any streets paralleling street car lines within two blocks of car lines and bond is required of each jitney operator sufficient to reimburse for injury or damages to passengers up to \$10,000.

INTRODUCES BILL TO COMPEL SHIPS TO CARRY LIQUOR

London, May 8.—A bill to provide that any ship entering British waters or leaving a British port be obliged to carry a reasonable amount of alcoholic liquors for the supply of passengers and demand is to be introduced in the house of commons tomorrow by Lieutenant Colonel George Lloyd Courthope, conservative member for the Rye division of Sussex. The measure which would impose penalties for failure to comply, its sponsors believe, would be an effective counterblast against the American prohibition laws. As a private bill, it has only the slightest chance of approval.

FORMER "FOLLIES" SINGER AWARDED \$7,200 VERDICT

New York, May 8.—Olive Cornell, a singer dropped from the "Follies" in 1920 because Florenz Zeigfeld did not like her enunciation, today obtained a \$7,200 verdict against the impresario. Miss Cornell had sued for \$25,000, but the jury which heard her case reduced this to \$10,000 and then deducted the singer's earnings since her discharge.

ACCIDENTS CAUSE FOUR DEATHS

Continued from First Page.

killed at the Daniel street crossing, when he tripped and fell, it is said, when he attempted to step from between the engine he was riding and a string of cars, which he was trying to "cut loose." He as dragged a distance of 50 feet before the train could be stopped, according to police reports.

Two other deaths were reported Monday. They were H. D. Bush, deputy United States marshal, living at Covington, and J. S. King, a painter, living at 5 Oliver street. Marshal Bush was killed at Five Points by a Grady ambulance, while King fell from a scaffold while painting an apartment on Piedmont avenue.

Full details concerning the death of Kitchens had not been learned late Tuesday night. The accident is being probed by fire department officials. The freight train was in charge of Engineer H. S. Oakes and Conductor A. L. Cranford.

Kitchens had been in the employ of the Southern for a number of years, and was an active member in the order of Brotherhood of Railroad trainmen. He is survived by his widow; three daughters, Mrs. G. H. Warrenton, Mrs. J. T. Fleming and Miss Rebecca Kitchens; two sons, H. C. Kitchens and Robert Kitchens; two sisters, Miss Emma Kitchens and Miss Willie Kitchens; one brother, N. S. Kitchens, and his father, P. W. Kitchens. Funeral arrangements will be announced later by H. M. Patterson & Son.

BANDITS OFFER TO RELEASE CAPTIVE

Continued from First Page.

cide to revert to their original demand for one million dollars and immunity.

China, Tuesday, spurred on by the ultimatum of foreign legations here, served notice on the governor of Shantung that the foreigners must be released at once and that the governor, if necessary, must pay the \$1,000,000 ransom demanded.

It is generally considered that the communication to the government of China served on the governor of Shantung is not worth the paper it is written on. It is inconceivable, in the mind of foreign observers, that Shantung could, in any manner or means, raise the huge ransom.

Must Take Action.
It is known that the powers of the world, who did not hesitate to intervene on the occasion of the Boxer rebellion, realize that if action is to be taken, it must be within a very short time. Fears for the lives of the hostages are increasing.

Apprehension increased Tuesday when Miss Minnie MacFadden, the traveling companion of Miss Lucy T. Aldrich, sister-in-law of John D. Rockefeller, Jr., disclosed that the bandits, before they allowed her to go free, threatened to take the lives of the prisoners if the ransom was not forthcoming in three days. The seventy-two hour period has now elapsed.

Miss MacFadden and Miss Aldrich are now in a hospital in Tsinaifu where they are recuperating from the ordeal of the capture.

The terms in which the foreign legations couched their demand to the Chinese government apparently signifies that the powers, unless China acts at once, will take matters into their own hands.

The ultimatum stated:
"Free all foreigners immediately, alive. We do not care what methods are used, but free them."

Raising Personnel.
It would not be difficult for the powers of the world to raise the personnel to participate in a punitive expedition into the wilds of Shantung. Battleships of the great nations of the world, with marine forces aboard, constantly ply the waters of China. In addition to the armed forces on the battleships, practically all European nations and the United States have small detachments of soldiers stationed in various parts of China.

According to the best available information all the foreign women of the party, who were seized by the bandits, have been released after they were stripped of all their valuables. The women, apparently, impeded the rush of the bandits to the hills and for that reason were allowed to go free.

Several American men escaped from the bandits during the march into the wild recesses of southwest Shantung. T. T. Day, of Ridgewood, N. J.; Henry Zimmerman and V. H. Vitych have all arrived safely in Tien Tsin.

CHINA AGREES TO PAY \$1,000,000 RANSOM.
Washington, May 8.—China has agreed to pay the \$1,000,000 ransom demanded by the bandits who hold 13 Americans and other foreigners as hostages in the hills of Shantung province, the state department has been advised.

All demands made by the council of ministers for the release of the captives, the punishment of the bandits, and the prevention of future outrages have been agreed to.

An official cable from Minister Schurman at Pekin, advised the state department that vigorous representations had been made by the council of ministers demanding all possible steps for the release of the captives, payment of the necessary ransom by the Chinese government, strong military action to suppress the brigands, and an official inquiry on which the diplomatic corps would be represented.

Progressive Indemnity.
The ministers also reserved the right above any material and moral damages claimed, to demand a progressive indemnity for every day after May 12 that the foreigners remain captives.

The Chinese prime minister not only agreed to all of these demands but volunteered to dismiss the civil and military governors of Shantung. This conference took place Monday.

Then the British minister also proposed that after a settlement of the present outrage, the Chinese government should be required to provide adequate police protection on the Tien Tsin-Pukow railroad to be paid out of the earnings of the line, which would be under the direction of a foreign traffic manager.

Independently of the joint action by the council of ministers, the United States has made a peremptory demand that the Americans be returned alive and the bandits punished. This took the nature of an ultimatum, except that no time limit was fixed.

As to measures that will follow if

the Americans are not delivered over safely, officials were significantly silent. "Whatever is necessary to be done will be done," one high official declared laconically.

Outrage Discussed.
This was the situation following the cabinet meeting, where the outrage was discussed between President Harding and his advisors. Secretary of State Hughes described the chaotic situation in China and the inability of the central government at Pekin to preserve order.

He explained how brigands have gained a livelihood for months by coming down out of the hills and villages in Shantung to raid on foreigners, releasing captives after being bought off by the Pekin authorities. The opinion was expressed that there can be no stability or order in China until there is a central government strong enough to protect foreigners and punish outlaws.

Unless Chinese officials show their ability to deal with the brigands who wrecked the Tien Tsin-Pukow express, it is probable that foreign powers, including the United States, Great Britain, France and Japan will organize an international force to protect their respective nationals.

Officials here show a disposition, however, to give China a chance to make good before resorting to such an extreme measure. China, it is explained, is a friendly, sovereign power and to send an army to punish her nationals would be a violation of sovereignty. Therefore, if China can preserve order she will be permitted to do so. But failing, outside intervention is certain.

Way Already Paved.
The way is already paved for this, not only are China's finances regulated by the powers, but an international police force now guards the Pekin-Tien Tsin railroad. Furthermore, the leading powers maintain small forces to guard their legations. These measures were taken after the Boxer rebellion. Now it is doubtful whether they are sufficient and the powers are seriously considering demanding the right to take further protective measures. They have always hesitated to extend their control over Chinese affairs, preferring to nurse the Pekin government to a point where it would be able to stand on its own feet. But thus far it has never been strong enough to demand the loyalty and support of any considerable portion of its citizens. Hence banditry has become a recognized and widely employed means of livelihood. Leaders of bandit bands have often been promoted to responsible positions in the Chinese army when they became powerful to the point where they threatened to take over the government.

The Chinese minister, Alfred Sze, is due here Wednesday morning and is expected to confer with Secretary Hughes during the day. Although the legation said no cables had been received from Pekin, it is probable that explanations to be made to the United States will have arrived by Wednesday.

Government Statement.
Announcement that the Chinese government has complied with the demands of the foreign ministers at Pekin is made in the following statement issued at the state department late Tuesday:

"The department of state has received a cablegram from the American minister at Pekin, Jacob Gould Schurman, to the effect that on May 7 the dean of the diplomatic corps at Pekin, on behalf of the diplomatic

corps, made to the prime minister, acting minister for foreign affairs, vigorous representations demanding that all possible steps should be taken immediately to secure the release of the foreign captives and that the Chinese government should pay the necessary ransom afterwards.

"The dean of the diplomatic corps also informed the Chinese officials that strong military action must be taken to put down brigandage in Shantung and an official inquiry must be held into the whole affair, on which the diplomatic corps must be represented. Minister Schurman reports that the prime minister promised to pay the ransom and to act as rapidly as possible—in fact agreed to all the demands presented by the dean of the diplomatic corps. The prime minister volunteered the statement that it was intended to dismiss the civil and military governors of Shantung.

Right to Indemnity.
"The diplomatic corps at Pekin met on the afternoon of May 7 and resolved that the dean should further inform the Chinese government that the diplomatic corps reserved the right over and above any moral and material damages claimed to demand a progressive indemnity for every day after the 12th of May that the foreigners remain captive.

"A proposal was made by the British minister that after a settlement of the present matter it should be demanded that the Chinese government provide for adequate police protection of the Tien Tsin-Pukow line, which protection shall be supplied by the railway itself and paid for out of its earnings.

"In order to bring this about, there should be appointed a foreign traffic

manager, a chief accountants, and police officers."

CHINA CONTROLLED BY MILITARY LEADERS.
Washington, May 8.—An estimate of the existing military and political situation in China, prepared by government officials, shows that China is controlled to a large degree by a number of provincial military leaders, each having a separate force of uncertain allegiance to the central government at Pekin.

Under the various provincial leaders there are forces under arms aggregating about 1,200,000 men, of whom not more than 10 per cent are controlled by the Peking government.

The power in China north of the Great Wall lies in the hands of Chang Tso-Lin, who has probably 150,000 armed troops. He is the absolute dictator of the Manchurian provinces and his power at the present time is said to be limited only by Japanese influences. Lin is one of the few men in China possessing great wealth. He has a private arsenal. He formerly was one of the chief bandits and guerrilla leaders.

Chihli Party in Power.
The greatest power between the Yangtze and the Great Wall is the Chihli military party of which Tsun Ku is nominally in charge, although Wu Pei Fu is acknowledged to be the real leader. Fu controls about 100,000 men.

Tsun Ku and Wu Pei have little opposition from other leaders in China except those who still operate at the head of smaller bandit groups, and they control the government of Pekin.

One of the men affiliated with the

Chihli party and regarded as a third importance from the standpoint of power, is Feng Yu Hsiang. He has charge of the troops in the north, or the Pekin district, numbering about 50,000, of whom 10,000 are said to be excellent and loyal soldiers.

South of the Yangtze, some of the leaders acknowledge allegiance to the Chihli party and some to Sun Yat Sen. Their power is said to be more nominal than actual.

Compromise Used.
Under this form of decentralized government, a policy has been followed by the Pekin authorities under which they usually compromise with bandits and effect any adjustment of difficulties either by use of money or commissioning bandit leaders but high ranks of provincial military forces. The bandit who recently captured a number of foreign missionaries in Honan province, including several Americans, was commissioned a colonel when he released the missionaries at the request of Pekin.

Bandit forces still operating in Shantung province are estimated at between 20,000 and 40,000 strong. This province is under the nominal control of the Chihli military party; and the military government of Shantung, Tien Ching Ya, has a record which shows an uncertain allegiance at times to the Peking government.

In addition to the 1,200,000 men under arms, there are hundreds of thousands of armed bandits in China and it is said the interplay of intrigue knows no bounds between them. Over these irregulars it is known that the war office is absolutely without control.

DANGER SIGNALS OF INDIGESTION

The Disease That Strikes
Like Lightning.

Beware of indigestion—the disease that kills more people and kills them quicker than any other. This warning by physicians, is particularly applicable this season of the year, when your system "lets down" in tone and vigor with the first approach of warm weather.

What are the warnings that nature gives you of the approach of indigestion? The medical books tell us: 1. Gas, which means that your food is fermenting instead of digesting. 2. A feeling of fullness or oppression in the region of the stomach after eating. This means that the gas has ballooned your stomach and is pressing up against your heart and lungs. 3. A dull, lazy feeling, which means that you are not getting nourishment from what you are eating. 4. Restlessness, unrefreshing sleep, which means that the poisons of indigestion are disturbing your brain and nerves. 5. Sometimes, pain and fluttering around the heart, though this symptom may come later.

Don't take chances with indigestion—you are too apt to lose it. If you have had any of the symptoms mentioned above, get your digestive organs to work at once with Dan-Nax, the greatest prescription that has ever been written for a digestive tonic. Dan-Nax immediately aids and assists every one of your digestive organs, including the stomach, liver and bowels. Dan-Nax makes your digestion "perfect and complete." You feel its helpful effect from the very first dose. Get a bottle of Dan-Nax today at any drug store. Dan-Nax is much superior to any other remedy for indigestion that the manufacturers have instructed every druggist to refund the price if you do not feel relief. It costs you nothing if you are not delighted with results. Delay might be dangerous, get Dan-Nax today—(adv.)

FLORIDA TO TEST LASH ABOLITION

In State Senate Passes Resolution to Give New System Thorough Trial in Convict Camps.

Tallahassee, Fla., May 8.—Florida is going to "try out" abolition of the practice of whipping men in the state convict camps.

The state senate Monday passed a resolution providing that abolition of corporal punishment shall be given a thorough test, and if the experiment proves successful, the lash shall be

definitely abandoned. The house is expected to pass the same resolution. Adoption by the senate followed several days' debate.

Meantime, before the committee investigating convict camp conditions, Mrs. J. E. Franklin told of nine convicts having died in the camp in the past year. Mrs. Franklin said that a number of prisoners from other countries also died there from inhuman treatment.

Barnes Outlines Business Man's Peace Program

President of United States Chamber of Commerce Addresses Convention.

New York, May 8.—The American business man's program for world peace and prosperity was outlined today by Julius H. Barnes, president of the Chamber of Commerce of the United States in addressing the eleventh annual convention.

He advocated that reparations be settled, European frontiers made secure, and universal peace established through abolishment of unnecessary armaments.

He urged payment of inter-allied debts on a basis of ability to pay, the restoration of national integrity and the consequent expansion of international commerce and industry.

He said he believed in the elimination of inter-governmental loans and credits on the ground they are "undesirable largely because of the political complications which inevitably accompany such transactions."

Mr. Barnes favored the gradual absorption into great transcontinental systems under private ownership but just governmental regulation of all existing American railroads.

The national council of the chamber today nominated Milton E. Mercus, Richmond, Va., John A. Arrington, Greenville, S. C., Frank K. Kel, Wichita Falls, Texas, and Vernon S. Tupper, Nashville, Tenn., for membership on the board of directors.

Fishing Party Guests Of G. V. Cunningham. On Big Satilla River

Ellaville, Ga., May 8.—(Special.)—G. V. Cunningham has just returned from a week's fishing trip on the Big Satilla river, ten miles from Folkston, where he entertained a number of his friends from over the state with a fishing party. This trip is an annual event, and those present report a wonderful time and lots of fish.

In the party this year were J. G. Oliver, James W. Morton, John J. Wilkins, J. C. Jester, Will Henry, John T. Pittard and Mr. Cunningham, of Athens; L. J. Skinner, McDonough; James E. Conwell, Atlanta; A. Wall, Charles C. McNeal, H. Willis Hogg, Harry F. Dixon, of Ellaville; J. J. Rowell, Jr., Lulaton.

Freight Wreck Delays Traffic on Southern Railway Near Ashburn

Ashburn, Ga., May 8.—(Special.)—A wreck of freight train on the Southern railway, two miles above Ashburn this morning about 10 o'clock, held up the trains until about 5 o'clock this afternoon. The Southern special and two other passenger trains were delayed about seven hours. Until the track could be cleared, there being two cars wrecked and another damaged, caused by a brake beam dropping on the track.

The main line was rebuilt over the wreck this afternoon about 7:30 and the damaged cars were removed. No injuries were reported.

HARRIS ADDRESSES AUDIENCE IN WARE

Waycross, Ga., May 8.—(Special.)—A large and enthusiastic crowd at the close of Senator William J. Harris' address at the county court house here Monday arose as one, on a motion by V. L. Stanton that the record of Senator Harris be endorsed. The entire address of the senator was received with enthusiasm, with frequent outbursts of applause interrupting the course of his speech, especially when Mr. Harris paid a glowing tribute to former President Wilson.

Judge J. I. Sumner adjourned court at 11 o'clock and introduced the senator, who opened his speech with a tribute to Ware county, and Ware county citizens.

Reviewing his years of service to the state in the United States senate, Senator Harris dwelt at some length upon the aid which had been extended to farmers. The securing of a pean experimental station, the adoption of poison gas to fight the boll weevil, the extending of credit to farmers on long term payments were some of the rural benefits which the senator stated that he had played a part in securing for the farmers.

Senator Harris praised highly the work of the federal reserve bank, severely criticizing W. P. G. Harding.

FIDDLERS WILL STAGE CONTEST IN ANNISTON

Anniston, Ala., May 8.—(Special.)—Alabama and Georgia fiddlers to the number of three dozen, with several banjo pickers, will assemble in Anniston Thursday for an open concert at the high school auditorium at 3:30 o'clock in the afternoon, an old fiddler's contest to be held at the evening hour at the same place.

The contest among the old fiddlers will be given for the benefit of the high school fund, and some of the best players in the two states will take part in the program. F. S. Coupland, the one-armed champion of the two states, will be in charge of the program.

LANE PURCHASES SAVANNAH PLANT

Mills B. Lane, Prominent State Banker, Will Effect Reorganization of Electric Light Business.

Savannah, Ga., May 8.—Mills B. Lane, of Savannah, stated this afternoon that reports current that he had purchased the Savannah Lighting company are true. He has bought the business of the company and a reorganization will be effected to-morrow, when officers will be elected. Mr. Lane is president of the Citizens and Southern banks of this city, Atlanta, Macon and Augusta.

The Savannah Lighting company has been in business, supplying current and power current to a large patronage for many years. The late John J. Cummings, whose death occurred suddenly a few days ago, was president of the company, reputed to be its chief owner, and personally directed the corporation for many years. It was said at the time of his death that the concern paid a profit of \$100,000 last year.

Mr. Lane stated that with reorganization of the company the lighting plant will be continued in operation as heretofore. No plans as to extension have been announced.

The city has had for a long time two electric companies, the Savannah Electric company and the Savannah Electric and Power company, the latter operating in addition to lighting and power current supply, the street car system in and out of the city.

Justices of the peace and their bailiffs patrol the highways in Florida in autos, forming "rolling courts."

YELLOWSTONE PARK
VISITED BY THOUSANDS

In Year 1922 More Than
98,000 Toured Great
Playground.

It is estimated that nearly one out of every 1,000 citizens of the United States toured Yellowstone park during 1922, according to D. S. Spencer, of Salt Lake City, general passenger agent of the Union Pacific lines, who was in Atlanta Tuesday, on his annual tour of this section, in the interest of Yellowstone park travel.

"Had it not been for the setback to travel arising from the railroad strike, Yellowstone park's record for 1922 would undoubtedly have exceeded the 100,000 mark," said Mr. Spencer. "As it was, 98,223 passengers visited Yellowstone last year and of that number 53 per cent of all the rail passengers entered through the western gateway at West Yellowstone, Mont. Travel From Georgia.

"The travel from Georgia, while not as heavy as from some nearer states, was encouraging, the grand total both in the matter of railroad and automobile travel showing that 140 passengers traveled from points in Georgia by rail, compared with 27 by automobile," Mr. Spencer said. Mr. Spencer states that advance bookings for 1923 indicate that the 1922 record will be surpassed, all of

the big tourist agencies as well as many clubs and privately organized parties having already made advance reservations for the new season, which opens June 20. Mr. Spencer is making a general tour of southern centers, visiting general agencies of the Union Pacific system, tourist agencies and others interested in travel.

Yellowstone Leads.
"Yellowstone is the 'daddy' of all the national parks and is one of the most unique, because of the unusual phenomena and the great variety of features which it embraces, including the geysers, wild animal life, with lakes, peaks and fishing streams," he continued.

The customary favorable train service will be operated by the Chicago, Northwestern and Union Pacific lines with through cars from Chicago, and from St. Louis and Kansas City via the Wabash and Union Pacific, with

convenient connections from Atlanta and other southern points, including stopover privileges at Oden and Salt Lake City to West Yellowstone.

Mr. Spencer states that some unusual developments are being made at Zion National park in southern Utah which bids fair to become a close contender with Yellowstone in popularity during the next few years, since a more direct rail line and improved highway, hotel and camp service will be provided for 1924.

Warner's 7 Aces Add to Laurels On Howard Stage

Prove Popular With Crowds
During Three Daily Performances There.

BY RALPH T. JONES.
Warner's Seven Aces, famous throughout the limitless reaches of the radio-restless air by their work for WGM, The Constitution's broadcasting station, are "knocking 'em out of their seats" at the Howard theater this week.

This orchestra, exponent par excellence of the modern popular music, is probably better known than any similar musical organization in America today—certainly better known than any other in the south. Their regular concerts over WGM are the signal for the tuning in of radio receiving sets in every state in the union. Unseen they have won their way into first place in the appreciation of radio fans.

Now they have proven just as popular before visible audiences as they are to their thousands of invisible listeners. They have been greeted with storms of applause at every performance and their engagement will make for a long time to come on of the high spots in local theatrical hits. They are playing at this week, at three performances daily—4:00, 7:30 and 9:15. Have you heard 'em? By radio only? Well, anyway, go and take a look at 'em. They are almost as good to look at as they are to hear. At least, so a certain lady told me.

RAILROAD ENJOINS PUBLIC SERVICE COMMISSION RULE

Enforcement of the Georgia public service commission's freight rule No. 1 against the Georgia, Southern and Florida railway and the Southern railway was restrained in an opinion handed down Tuesday by Judge Alex C. King, of the United States circuit court of appeals.

The freight rule related to continuous hauls and provided that such hauls must be handled by the two roads on the same freight rate that would apply as if they were one and the same road.

The rule was scheduled to take effect May 1. The railroads filed a petition for an interlocutory injunction, setting forth that they were separate corporations. It was admitted that the majority of stock in the Georgia, Southern and Florida railway is owned by the Southern and that certain of their officers are the same.

Alleged Abductors Sued for \$20,000

By Carl J. Davis

Carl J. Davis, Y. M. C. A. resident who claims that he was taken from the central Y. M. C. A. and compelled to apologize to a young Atlanta girl, Tuesday filed suit for \$20,000 damages against his alleged abductors.

He named as defendants W. T. (Tup) McWhorter, Claire Frey, E. F. Fincher and Henry Lyons.

The alleged incident followed a dance attended by the college set. The four defendants in a very unbecoming criminal court on charges of assault and battery and were fined. Davis claimed that his alleged assailants accused him of having insulted the girl at the dance. Davis is represented by Attorneys Branch and Howard.

Playground Workers To Start Training For Teacher Jobs

Mrs. Hunter Smith, supervisor of city playgrounds, Tuesday issued notice to 86 applicants for positions of playground directors, to report for a two weeks' course in recreational work at 3 o'clock next Tuesday afternoon in Piedmont park. Twenty positions of playground directors will be filled from the eligible list, it was stated.

Atlanta playgrounds will open the first part of June after the school term closes, Mrs. Smith stated.

"GREATER DAVIDSON" VOTED \$100,000 GIFT

Word was received here Tuesday that Mecklenburg county, N. C., in which Davidson college is located, had subscribed \$100,000 for "A Greater Davidson." This message was sent to them by Malcom Lockhart, well-known Atlanta campaign director, and a resident of Decatur, who is directing the Davidson campaign.

Mr. Lockhart, who is one of the prominent Presbyterians of north Georgia, is well known in Atlanta as the co-director of the Greater Georgia Tech campaign, director of the \$500,000 campaign for Agnes Scott, and as the director of several Y. M. C. A. campaigns. Mr. Lockhart is an elder of the Presbyterian church of Decatur, but has been connected with the Davidson campaign for nearly a year. Several Atlanta ministers and professional men are graduates of Davidson, and Scott Candler, a well-known business man, is a member of the Davidson board of trustees. Assisting Mr. Lockhart in the Davidson drive is F. E. Skelton, of Atlanta, who was a former staff member of the Greater Georgia Tech campaign.

AGNES SCOTT LIBRARY IS PROVIDED IN WILL

Erection of a library at Agnes Scott college is provided in the will of Dr. J. D. M. Armistead, who was a professor at that institution before his death several days ago. Dr. Armistead's will was probated in DeKalb county.

He requested that the remainder of his estate be divided between his nephew, Armistead McMurray, and his niece, Miss Charlotte McMurray, both of Virginia. C. W. Dieckman was appointed executor.

Gay Time Is Planned For South Carolinians On Visit to Madison

Madison, Ga., May 8.—(Special.) The party of South Carolinians who will visit Madison, on Thursday, May 17, will have a gay old time, if Madison's hospitality and feeding ability

count for anything. Plans are on foot, with Mayor R. W. Parker at their head, assisted by the foremost business men of the city, to throw the doors of the town wide open to the visitors. They plan to arrive in Madison at 11 o'clock and to depart at 3 o'clock.

The party consists of 125 of the leading business men of Greenville, S. C., together with a party of the leading officials of the state, including the governor. Their tour is made in the interest of good will, and to get acquainted.

Governor-elect Clifford Walker has been invited to join them here and spend the day in Madison with this party. Madison is planning to turn out in full to the big reception that is planned. The Madison Kiwanis club is sponsoring a big barbecue for the day.

A carload chicken sale is scheduled for that day, and this will be an innovation for some of the party, and will tend to show what is being done here in the way of developing the resources that lie at our door.

EXPECT TO SETTLE RATES DIVISION

To Confer With Southern Railway on Warrior River Agreement.

Washington, May 8.—An amicable agreement for a division of rates between the Southern Railway company and the barge lines of the Warrior river, Alabama, is expected in the near future, Representative Oliver, of Alabama, said today.

Notice has been received from the railroad officials, the Alabama representative said, indicating that they are prepared to discuss the matter under a recent order of the interstate commerce commission.

Colonel T. Q. Ashburn, chief of the inland and coastwise waterways service who has been giving special attention to barge line rates, is arranging today either to bring Theodore Brent, his assistant, back from New Orleans or designate another assistant to confer with officials of the Southern on the matter. Should these officials fail to reach an agreement among themselves, satisfactory to the interstate commerce commission, the latter will establish the rates.

TAX EQUALIZERS IN LAMAR COUNTY REVISE RETURNS

Barnesville, Ga., May 8.—(Special.) R. L. Swatts, chairman, W. H. Phinazee and G. W. Pippin, assisted by E. Luther Day, are revising the board of tax equalizers of Lamar county began their duties Monday and will be in session for some days, going over the tax returns for the year 1923.

They are expecting the totals to show a considerable falling off as compared to 1922, due to reductions in personal property and also to the migration of the negroes who have gone north and west within the past several months. It is reliably reported that fifty negroes per month have left this section of the state for several months. As a result there is a shortage of farm labor.

In spite of this, however, farmers are counting on making decided advancement during the year. They are planting a reasonable acreage in cotton and devoting more attention to diversified farming, growing grains, peanuts, potatoes, poultry, hogs and cattle.

The tax equalizers are doing their work very carefully and the county is being operated on a sane economic basis, the county rate averaging ten and a half mills since the county was created.

William J. Day, Prominent Planter, Dies in Marietta, Ga.

Marietta, Ga., May 8.—(Special.) William J. Day, aged 51, prominent planter of Cobb county, died at his residence in Marietta tonight, after being in ill health for several years. He formerly was connected with several leading business enterprises of Marietta, but sold his interests because of failing health.

Mr. Day is survived by one brother, J. R. Day; and one sister, Mrs. J. W. Day, both of Marietta. He was never married. He was a member of Big Springs Methodist church, in Cherokee county, his birthplace, where funeral services will be conducted Thursday morning by Rev. C. D. Drake, of Marietta. Interment will be in the church cemetery. Black Undertaking company has charge of the arrangements.

THIEF IS IMPARTIAL Burglarize Home of West Point Police Chief.

West Point, Ga., May 8.—(Special.) In order to demonstrate the impartiality which seems to be his motto, a thief who has been operating here at intervals in recent weeks, entered the home of Chief of Police John A. Daniel last night via a ladder connecting with a rear window, took his revolver from the mantel and his purse from his trousers at his bedside, extracting \$22.50 from the purse, returning purse to trousers. The chief was awakened by his daughter who had been aroused by footsteps of the burglar. Hearing a screen door open, he arose to find his gun and scabbard gone.

So far no trace of the thief has been found. Tracks in the soft earth at the rear of the house disclose that the burglar was alone and that he wore a pair of tennis shoes, number 6 or 7.

HARRIS INDORSED AT QUITMAN MEET

Quitman, Ga., May 8.—(Special.) United States Senator William J. Harris spoke here today at the noon hour and gave an account of his stewardship in the senate. Judge W. E. Thomas adjourned superior court for two hours for Senator Harris.

The courtroom was crowded and Senator Harris was given a great ovation. After the address, the entire audience arose to its feet on motion of W. S. Yates that all present endorse the services rendered Georgia by Mr. Harris. The vote was unanimous, and the applause continued for several minutes.

Mr. Harris was also the principal speaker at the luncheon of the Quitman Rotary club today when he told of conditions in Japan, the Philippines, China, Korea and Germany and Austria.

Senator Harris spent this afternoon in various parts of the county, spending the night here and leaving tomorrow for Thomas county. He will speak Thursday at Adel, Friday at Statesville and Saturday at Milltown. He will spend Sunday in Cordele and speak in Abbeville Monday.

Naval Reserve Force Holds Meeting Tonight Preparatory to Cruise

Preparatory to a cruise to Havana, Cuba, which begins on June 12, a meeting of the United States naval reserve forces of the Atlanta district will be held at the new headquarters for this district, 79 Peachtree street, at 7:30 o'clock tonight.

It was reported by those in charge of the district that 200 vacancies are open, and that ex-service men, present members of the reserve, or any person desiring to make the cruise, are urged to be present.

JURORS REMAIN OUT IN MURDER CASE IN AUGUSTA

Augusta, Ga., May 8.—(Special.) At midnight the jury in the case of John Conshian, on trial for murder, had not agreed on a verdict. They have had the case since 6 o'clock. The judge has announced that he will return to the courthouse should he be informed that a verdict has been reached.

Cosman was indicted jointly with E. B. Skinner for killing Gordon Winter, near Hephzibah, April 24. It is admitted that Conshian fired the shots that killed Winter. Conshian set up self-defense and sought to show that he fired to save his own life and the life of his companion, Skinner, when Winter attempted to shoot them.

The case has occupied the attention of the court throughout the day and there has been general interest in the outcome. Winter was in his 30th year and was the father of eleven children.

NEGRO IS FINED \$100 Passing Street Car on Left Side Is Cause.

It is a violation of the law to pass a street car on the left side, with a vehicle, even though you are in a funeral procession and the street car conductor is perfectly willing. Police Commissioner J. E. Beall, who occupied the bench Tuesday in the absence of Recorder Johnson, ruled in the case of James Cheney, negro, who was charged with violating that traffic law.

According to the testimony of Officer Acree, the negro was attempting to pass a street car on the left at Ellis street and Piedmont avenue Monday, and smashed into the city car, going in the opposite direction. The negro claimed that he was following a funeral procession, and that the conductor waved him to the left side. He was given a fine of \$100 and costs.

SIMMONS WILL REST IN WESTVIEW TODAY

Funeral services for Thomas J. Simmons, of Louisville, Ky., former Atlantan, who died Sunday in Mayville, Ky., as a result of injuries received in an accident at Vanceburg, while attempting to board a moving train, will be held in Atlanta at 11 o'clock this morning from the chapel of Harry G. Poole, Rev. L. O. Bricker, officiating. Interment will be in West View cemetery. The body arrived in Atlanta Tuesday morning.

BRUNNER IS FINED ON DOPE CHARGE

Macon, Ga., May 8.—(Special.)—On a charge of violating the Harrison narcotic act, Charles E. Brunner, former Macon druggist, paid a fine of \$750 in federal court here today. The fine was imposed by Federal Judge William H. Barrett, after Brunner is alleged to have admitted filling certain prescriptions alleged to have been issued by certain Macon doctors. He paid the fine. Brunner is now in business in Florida.

AGED WOMAN'S DEATH IS CHARGED TO NEGRO

Albany, Ga., May 8.—Charged with killing his wife's grandmother early in February, Phil McCarthy, a negro, 21, is in Dougherty county jail here. He was arrested in Terrell county yesterday, having been a fugitive since the killing. He is alleged to have killed the aged woman, who was about 70 years old, by striking her on the head with a stick of wood.

WEST DE KALB SCHOOL WINS FIELD DAY MEET

Decatur, Ga., May 8.—(Special.) Field day for DeKalb county schools was held today in Decatur. In the athletic events the West DeKalb district came first, with the middle DeKalb district second. North DeKalb won first place in the literary events and middle DeKalb second. Participants in these contests were winners in preliminary contests previously held.

Luxury For Sore Feet

Skin specialists have discovered that painful, perspiring and swollen feet with corns, bunions and ingrowing nails are all caused by germs which grow in the pores of the skin, causing decay of the cuticle, irritation, rawness, eczema, inflammation and odor. These germs are instantly destroyed by Eucapine, the antiseptic healing salve, applied after bathing at bedtime. It draws out all the inflammation and soreness before morning, destroys the germs and restores healthy condition to the skin and nails.

It is explained that ingrowing nails do not really grow down into the flesh, as supposed, but that the flesh, being swollen, is pressed over the nail. The Eucapine takes out the swelling and inflammation, destroys the germs and the trouble disappears. Corns and bunions gradually disappear in the same manner by removing the cause.

Eucapine is the modern scientific treatment for pain, inflammation and germ infections of the skin and mucous membranes and has many daily uses in every home. Ask your druggist to send you a family jar price 50 cents.—(adv.)

TRUCK ABANDONED AFTER BREAKDOWN LIQUOR IS SEIZED

One hundred and fifty gallons of corn whisky and a wrecked two-ton truck were seized by county police early Tuesday morning in Stewart avenue, near Lakewood, where it had been abandoned by the owner, following an accident just before day-break.

Lieutenant Oliver and Officers Nelms, Vinson, Riley and Cawthon, who found the wrecked liquor machine, had it towed to the Fulton county jail. The license tag and other marks of identification had been removed.

MEXICAN LABOR LEADER SPEAKS HERE TONIGHT

Jose W. Kelly, Mexican labor leader, who is touring the United States, will speak in the Atlanta Labor temple at 8 o'clock tonight on the general subject of "Labor."

Mr. Kelly returns to the city after a recent visit, as the guest of local machinists, and will be one of the principal speakers at the meeting of the Federation of Trades.

Other features of the program will be addresses by representatives of the Associated Charities, who will make a plea for financial support, and a report from the executive board upon the proposed Central Park.

Examinations Will Be Held for Teachers Friday and Saturday

Examination for white teachers in the public schools of Atlanta will be conducted in council chamber at the city hall on Friday and Saturday of this week, it was announced Tuesday by Superintendent Willis A. Sutton. At the same time examinations for colored teachers will be held at the Young Street school.

Schedule of examinations are as follows:

Friday, 8 to 11 o'clock, geography; 11 to 2, elementary science, and from 2:30 to 5, history, civics.

Saturday, 8 to 11 o'clock, arithmetic; 11 to 2, methods, and from 2 to 5, grammar.

BUILDERS CONSIDER TRAINING SCHOOL

A committee from the Atlanta Builders' exchange Tuesday had under consideration the proposed establishment of a trade school as a means of relieving the prevailing scarcity of labor.

Commercial building slowed down considerably, it is said, due to a shortage of labor. The proposed school would instruct men in building trades, especially in bricklaying, sheet metal work and plastering.

The committee consists of George B. Hinman, Charles Lordinas, B. M. Hood, D. A. Farrell, V. H. Krieshaber and W. R. McGrath.

STURDIVANT GIVEN AUTO ONCE USED BY CHIEF POOLE

Lieutenant T. O. Sturdivant, in charge of the plainclothes officers, Tuesday was assigned the automobile formerly used by Detective Chief A. Lamar Poole, and which was placed in emergency service by the police committee of council.

Chief Heavers issued orders transferring the machine to Lieutenant Sturdivant at the request of members of the police committee.

Primitive Baptists Plan to Celebrate First Anniversary

Members of the Atlanta Primitive Baptist church will assemble tonight at the church to celebrate its first anniversary. Within this time the church has grown from a mere handful of members to a congregation that will soon require the erection of another building, and a lot has already been purchased for this purpose, it was announced.

The devotional program will be under the direction of Elder Walter M. Blackwell, pastor of the church, and Elder George B. Goddard, of Milner, Ga., will deliver the principal address. A social hour will follow the devotional services at which refreshments will be served by the ladies of the church. A special musical program has been arranged.

JAPANESE ALOOF ON BANDIT ISSUE

Request From Other Nations Necessary Before Japan Will Send Armed Force to Rescue.

Tokio, May 8.—Japan will not send troops to rescue foreigners kidnapped by Chinese bandits, it was learned Tuesday, unless other nations request her to.

The Japanese government has ascertained that no Japanese citizens were among those kidnapped and considers that it could not properly take any military action without a formal request being made.

Japan officially still maintains the attitude that she is hoping that China herself will restore order but is afraid that conditions will gradually become worse and may force some form of foreign action.

The Japan Advertiser, a leading English language newspaper, published in Tokyo, declared today: "China has seriously jeopardized her right to equal intercourse with civilized nations."

"It would be tragic to send American troops to China as was done in the Boxer uprising, but China cannot expect to be let alone to the enjoyment of anarchy and lawlessness."

Mount Berry, Ga., May 8.—More than 200 students at the Berry schools have applied for employment during the summer which will enable them to earn their expenses at the institution before the opening of another term, according to announcements here.

Of this number, 175 have been employed by the school. These students will be given work on the farm, in the kitchen, the dormitories and the sewing rooms and will be credited by the schools with money to cover all their fees and tuition for the next year, as well as board at the institution.

Each year Miss Berry has made efforts to raise thousands of dollars to assist young men and young women who wish to aid themselves. During the past year, however, her work has been curtailed and a number of students have been forced to find employment elsewhere.

A number of girls are being employed this summer to provide sheets and pillowcases, as well as other equipment for the state Sunday school convention and the Teachers' institute which are to be held at the institution during the summer. Friends of the school have donated quantities of sheeting which will be cut and made into bed linen for the girls.

Other girls will be employed in Sunshine cottage, where they will spin and weave the wool and flax raised on the farm by the boys.

A number of the students graduated this spring have already obtained teachers' certificates and many of them have found places in the rural schools of the state. Others immediately began agricultural work in their home communities.

The Berry schools quartet has been retained for the summer and will visit mountain and rural communities to interest students in industrial education, scientific agriculture and forestry methods. The quartet will be accompanied by a representative of the institution, who will make addresses along these lines.

Albany, Ga., May 8.—Judge W. V. Custer, of the Albany circuit, is presiding this week over the Randolph superior court due to the inability of Judge W. C. Worrell, of that circuit, to serve. The civil docket will not be heavy but there are a number of serious cases on the criminal calendar.

Floyd Conditions Good. Rome, Ga., May 8.—Conditions in Floyd county are very good, according to Tax Receiver W. T. Carden, who reports that a marked increase in population is apparent from the returns. The purchase of property and erection of new buildings is proceeding rapidly.

Augusta, Ga., May 8.—The Grand Commandery of Georgia, Knights Templar, will meet in Augusta Wednesday and Thursday for the 63rd annual convocation. Arrangements for an elaborate entertainment of the visitors have been arranged and a great celebration is being planned.

San Francisco, May 8.—The general strike called by the Industrial Workers of the World April 25 is about at an end in the Pacific coast states, according to reports received today. The loggers and longshoremen in Washington voted to return to work. At San Pedro, Cal., 1,200 longshoremen went to work on 50 steamers.

Ship owners reported the men were returning to work rapidly and the plan to import workers had been laid up. A leader of the I. W. W. in eastern Washington was quoted as saying the men have been ordered to return to work and "strike on the job" by slowing up production.

Longshoremen are returning to work at Los Angeles harbor at the rate of 100 a day, according to officers of the Ship Owners' association of the Pacific coast.

A total of about 1,200 were expected to report there for duty today and ship owners predicted conditions would be practically normal within a week.

Chicago, May 8.—Earl Curzon of Kedleston, in a bill filed in his behalf in superior court today, allied himself with his sister-in-law, Lady Marguerite Hyde Suffolk, also of England, in claiming reassignment of the \$100,000,000 estate of Lady Hyde Suffolk's father, the late Levi Z. Leiter, of Chicago. Earl Curzon intervenes as the guardian of one of his daughters. His first wife was Mary Leiter.

In a bill seeking an accounting filed last week Lady Hyde Suffolk alleged that her brother, Joseph Leiter, one of the trustees of the estate, had managed the estate as though it were his own.

Macon, Ga., May 8.—(Special.)—The plant of the Continental Packing company, largest in the south, began its season's operations here today with 115 people employed. For the first time in the history of Georgia canning plants, asparagus was canned. The number of employees will be increased during the season until the top figure of 650 is reached about the first of June.

Asparagus will have the right-of-way until May 20. Beans will follow asparagus and before the bean crop is entirely packed peaches will be ripening. Ten thousand cans of asparagus will be canned daily.

Anniston, Ala., May 8.—(Special.)—With Judge William I. Grubb, of Birmingham, presiding, the spring term of the federal court for the eastern division of Alabama was convened at the federal building here Monday afternoon, indications being that the business of the term will be completed by Thursday.

Organization of a grand jury to investigate alleged liquor and distilling violations during the last few months, was the first of the items on the court calendar, the court taking up the trial of illicit distilling cases immediately after the organization.

SIMS CRITICISES NAVY DEPARTMENT

"Attitude Toward Naval War College Has Long Been a Crime," Declares Rear Admiral.

Boston, May 8.—The navy department was criticized for appointing officers who are not graduates of the naval war college to the highest positions in the navy, in an interview given by Rear Admiral William S. Sims, retired, at Newport, R. I., to The Boston Transcript.

"In my opinion," said Admiral Sims, "the attitude of the navy department toward the naval war college has long been a crime. The appointment of an officer who is not a graduate of the war college to be commander-in-chief of the great United States fleet is a crime against the people of this country and so is the appointment of a non-graduate to the most important position in the navy department—that of chief naval operations."

"Appointment of an officer lacking this training to be head of the naval academy at Annapolis, is nothing less than a scandal. There never has been a war college man in that position."

"More than half of the officers given preference in the transfers recently, to take effect this summer, are not graduates of the war college. The service is disgusted with the situation, disgusted that the same old game of service politics is being played. It believes that the best place is a seat next to the dealer in Washington. Personal influences bring greater rewards than war college training. Making bureau chiefs of officers who lack this training is an extremely serious matter."

The war college, he said, gave the officers training "in the application of those doctrines which enable widely separated elements of a great fleet to co-operate as a single team and which enable the commander to make sound tactical decisions in time—that is before the enemy can seize the initiative."

Before his retirement, Admiral Sims was president of the naval war college at Newport.

Eighty-Six Persons Indicted on Charge Of Violating Dry Law

Wheeling, W. Va., May 8.—Eighty-six persons, including a number of women, were indicted today by a federal grand jury which returned 17 true bills charging conspiracy to violate the national prohibition law.

Harry Clouse, sheriff of Ohio county, and a number of others prominent in business and political circles were among those indicted. Sheriff Clouse has been arrested.

Miss Belle Bennett, leading woman of the Forsyth players, in three appearances this week as "Jeannine" in "Lilac Time" has surpassed anything she has done in Atlanta. Applause and flowers that have been showered upon her have been unmistakable evidence of one of her most signal triumphs. John Littel, leading man, in the role of "Lieutenant Blythe" has also received a full share of the plaudits of the houses that have seen the war romance.

"Lilac Time" was written by Jane Cowl and Jane Murfin. It entertains its auditors with a wealth of sterling comedy and is accompanied by a stream of wholesome wit and humor.

Keith Vaudeville. (At the Lyric.)

The Texas four, a quartet of clever song birds who occupy a prominent position on the current program at the Lyric, have completely captivated first half audiences with their tantalizing harmony. They present a vocal inflection that is the new word in modern variety entertainment.

Of all the educated animals that have appeared at the Lyric in the past, Bob Anderson's polo pony takes the foremost rank. She is a wonderful horse and no problem in arithmetic seems too difficult for her to solve.

The singing and instrumental novelty presented under the billing of "Just Music" is a signal for willful display their remarkable vocal and instrumental talent.

Grace, youth and liveliness are the features of the repertory offering by Majorie Thomas and Lillian Akers.

Atlanta's Eager Factories

THE happy clatter of industry that rises from Georgia's valleys and echoes from a thousand cattle covered hills finds its highest productive expression in Atlanta—the great industrial city of the New South, where 1500 eager factories fashion their products for the markets of the world.

Broad industrial expansion demands vast, sound financial support; so it is but natural to find Atlanta and its wide trading territory constructively and competently served by a banking establishment of outstanding magnitude—one which has kept step and stride with Atlanta—paralleling its phenomenal industrial growth with a consistent broadening of financial service and now exercising the largest invested banking capital in the South.

Remember this fact and be careful about lending your assistance to any radical politician or editor who is supporting or advising half-baked and unsound ideas about ways to improve and regulate American railroads.

For many years, because of Governmental regulation of revenues and heavy operating costs, the railroads have been unable to provide adequate transportation facilities. Consequently, more engines, more cars, more tracks, terminal facilities and varied improvements are sorely needed to meet the current and prospective demands. And it is possible for these to be created only through profits earned by the carrier. Unless the railroads make money—a sufficient margin of profit over their operating costs—they cannot make these needed investments.

The enormous amount of money which has been spent by American railroads for the improvement of track conditions and added equipment, during the past twelve months, is but a drop in the bucket as compared to the amount actually needed by the transportation system.

McCord's Bulletin

Georgia farm land produced 60 per cent of its value in 1919, according to the census.

Only one of the great grain states, Ohio, produced as much as 30 per cent of farm values. The others turned out from 13 1-2 to 27 1-2 per cent.

This means that a farmer in Georgia can get a larger return on his capital than a western farmer can.

Here is an economic gravity tending to send men and money Southward.

The negro is entitled to a square deal and should be treated with all due consideration, but if he leaves us, somebody will take his place. The opportunity is too great to remain long neglected.

The Georgia farmer's difficulties at present are very great, but will be overcome in time, and when they are, agriculture in this state will be on a sounder and more prosperous basis than ever.

WARDEN DYCHE MAKES PLEA FOR EX-CONVICTS

Men in Federal Prison Are Not Inherently Bad, He Says.

"Of the 16,000 men branded as criminals, who have come out of the doors of the federal prison in the past twenty-one years, 944 were Georgians and 896 of that number were boys," Warden J. E. Dyche, of the United States penitentiary, told members of the Lion's club at their weekly luncheon Tuesday. He urged employment of released prisoners, who are thrown on the mercy of society, penniless and destitute.

"The majority of the 16,000 came from New York state," he said, "but Georgia has sent more than the average. A few who passed out of the doors were dead—181—whose last wish was that they might have been able to return home to begin anew life. I suspect that many of these have gone into society and whether you like to affiliate with them or not, they belong in society, and should be given employment and an opportunity to develop into useful citizens."

"Do not think that all those on the inside of those gray walls are inherently bad and those on the outside are all good. A man may have committed murder and still be a decent fellow, because murders are usually the result of sudden impulse, and many that I know would not steal any quicker than the average citizen."

Many Paroled.
"Within 12 years, 1900 men have been paroled up to last July, and at present there are 244 on parole. Of this last number only 41 per cent have broken their parole, and it would astonish one to know what per cent of the citizens of Atlanta have lived up to parole requirements within this time."

"These men have earned in actual money the sum of \$1,250,000. Pardons have been granted to 76 of them and 475 have had their sentences commuted."

"The average sentence of men who enter the prison is two years and seven months, and the present enrollment is 2,528 men, who represent an approximate citizenship of 13,000 people," Mr. Dyche stated.

Night School.
A night school is conducted at the prison, he said, and the eagerness with which the occupants seize this opportunity is surprising. The school can only accommodate 300, although nearly 1,200 have asked to be admitted.

Mr. Dyche stated that an idea of the size of the institution may be gained by the amount of food-tuffs consumed at every meal. It requires 1,800 pounds of beef, or 3,000 pounds of fresh pork, 800 pounds of sausage, 550 pounds lima beans, 2,400 pounds of cabbage (raised on the farm), 3,000 pounds of bread, 2,400 pounds of potatoes, 100 pounds of coffee, and 50 pounds of tea every other day, with other articles not mentioned.

Resolutions endorsing the movement of the Tech night school urging council to appropriate large sum of money, for the benefit of students unable to pay their expenses, in the institution, were passed at the meeting.

Mrs. Louis Ross Brown entertained the club with several vocal selections.

Two Are Injured When Explosion Wrecks Building

Buffalo, N. Y., May 8.—Two men were seriously injured and 100 girls made hurried flight from the plant of the H. O. C. Co. company in a factory street this afternoon when a dust explosion wrecked the feed building.

Firemen were unable to enter the building because of tottering walls, but officials of the company said it was believed all employees in the feed section except the two taken to a hospital escaped injury.

Survey Reveals Effect of Boom

diplomats, than to the American farmer and industrialist eager for a chance to overtake the hard luck caused by the war, has discovered the leaders of his own party and proved most gratifying to the opposition.

Until Mr. Harding dumped his plan on the doorstep of the dying congress, the democratic party was, if anything, worse off than the party of which Mr. Harding is the head. Politically divided state governments in Kansas and Missouri made it impossible for the radicals in both parties to inflict any great amount of injury on the over-burdened taxpayers in either and given them a chance to do business without interference.

With a democratic governor and a republican legislator in Kansas and a republican governor and democratic parliamentary body in Missouri, the erstwhile harassed business man and agriculturist in both states pleasantly expected a political vacation.

The projection of the international court idea of the president has changed all that. It has brought renewed hope to the democratic leaders, who were without either leadership or issues and left their republican rivals grasping for breath. Most of the latter have not yet figured out the real reasons that induced the president to introduce his new foreign scheme or the clear ether of the influences to which he so abruptly responded.

The result has been that economy tranquility which gave promise of an attractive future has been replaced by apprehension on the part of republicans. The democratic leaders in Missouri and Kansas are entirely satisfied with the situation.

Radical Promoters Pleased.

Promoters of radical ventures appear to be scarcely less pleased. The revival of the league of nations issue, which they regarded as dead will insure them sympathetic audiences before whom to exhibit their wares. The natural trend towards independence on the part of the mid-west farmers holds out a vast amount of encouragement to the exponents of both industrial and agrarian socialism. The chief deterrent at present is the wave of prosperity in which the farmer is beginning to share.

It permitted to expand his efforts along normal and prosperous lines the Missouri and Kansas farmer and industrialist would keep his eye on his wheat, corn, oats, sugarbeets, livestock, hogs, sheep, coal, zinc, lead, oil and manufactured products and turn an unwilling ear to radical propaganda specializing in gloomy and fallacious prophecies. The chief ambition of the Missouri and Kansas farmer who are politically important to the politicians is to be let alone. He feels that if permitted to do so he will solve his own problems and work out his own destiny.

It is the opinion of men qualified to reflect the mind of the agriculturist in the southwest that the latter thinks the president, Mr. Hughes and Hoover do not understand him or at least lack sympathetic understanding of his needs and grievances.

Railway Problem Real One.

Some of these grievances are very real as elsewhere, others purely imaginary. The railway problem is real.

Transportation agencies have been far from adequate and satisfactory for several years mostly due to war conditions, and scarcely less important in his mind, to bad or greedy management.

He wants that corrected to start off with, so that he will have cars when he wants to move his crops, and lower tariff. He expects the government to do something about it. But he is not any more satisfied with the government plan to consolidate regional carrier units into geographical groups than the manufacturer and shipper of farm products and live stock.

The fact is the whole southwest, with isolated exceptions, is up in arms against the some program which the interstate commerce commission is trying to work out for the instruction of congress. Popular sentiment in St. Louis and the Mississippi valley is against the plan which directly affects Missouri and Kansas and the southwest accurately reflects majority sentiment the railroad problem and not the league of nations or international court is going to be the paramount issue of the coming session of congress.

It is not likely that agricultural conditions will be a great deal of trouble. The Missouri and Kansas farmer who is always suspicious of the professed friendship of politicians is waiting to see how the program all good. A man may have committed murder and still be a decent fellow, because murders are usually the result of sudden impulse, and many that I know would not steal any quicker than the average citizen."

Wants Larger Profits.
The thing he wants most, however, is a wider market for products at prices which will return him a larger shade of profit. And he doesn't care whether he secures that at home or abroad. His interest in Europe is less pronounced than it was two years ago and not so important as domestic problems that directly confront him. Generally, farming conditions in Missouri and Kansas are promising. Old wheat is bringing 25 per cent more than a year ago. "Corn is up 50 per cent, livestock and hog markets are steadily improving. Wheat, wool and sugarbeets are surprisingly strong."

There are 200,000 farms in Missouri and 165,000 in Kansas. Some idea of the prosperity of the Kansas farmer despite his pessimistic outlook on life is shown by the fact that he collectively spent \$16,500,000 for new farm machinery and repairs two years ago and only \$5,000,000 last year.

Political Conditions Puzzling.

Political conditions in both states are admittedly puzzling to the leaders of the major regular units. Which way either will jump next year is a matter of opinion. There is, as said, a pronounced degree of independence of both, which if organized might work havoc with the plans of the professionals. Developments in the next year will tell the tale.

Republican leaders in both Missouri and Kansas think Mr. Harding will be renominated. They are not enthusiastic about him, but there is at the moment only casual gossip about anyone else. Hiram Johnson seems to have more popular support, particularly in Kansas.

Democratic speculation reflects only casual interest in prospective candidates. One hears more about Woodrow Wilson than any man in the democratic party coupled with the regret that he will probably not be available to head the ticket of his party.

Mr. McAdoo's partisans have been active but impotent. There is no interest in the efforts of his supporters.

Henry Ford would secure a large following in both states, particularly Kansas. A few claim Governor Smith, of New York, particularly in Missouri, where there is a lot of wet sentiment as was revealed by the victory of Senator Jim Reed last fall.

The aggressive Missouri senator, by the way, has a lot of supporters, for the democratic nomination on a "moist" and anti-league of nations platform. He sees only disaster to his party if it stars the league in the next campaign. He is in favor of discarding it altogether.

The K. K. K. still thrives in Missouri and Kansas, less aggressive than it was a year ago, but likely to exercise a great deal of influence in political contests, especially those of a local character.

SIX AMERICANS SURVIVE SECOND DAY'S PLAY AT DEAL

Dr. Willing and F. Ouimet Easily Win Matches; Three Americans Are Defeated

Robert Herron, Former American Champ, Wins During Morning, But Loses in Afternoon; Johnston and Hunter Lose.

Deal, May 8.—Like the 99 blue bottles that all of us must have sung about at some time or other, boys are disappearing one by one from the British amateur championship tournament at Deal. How many there were at the start I can not just quite remember, but now there are six—and just another one in the person of Douglas Grant. But Mr. Grant, though an American, is a resident of London whom we some time since adopted as a Britisher. We have yet to regret it.

Dave Herron was pushed out by accident. He is playing good golf but on Tuesday nothing would break right for him. After losing his first four holes he made a spurt and seemed to be coming home safely after all but R. U. K. Finlay commenced to hole putts from nowhere and everywhere and poor Dave had to cry "enough," a long way from home, losing four up and three.

Herron took his unexpected defeat like a true sportsman. He is a good boy, this Davidson Herron, and has taken the fancy of the British public. Johnston loses.

Jackets Plan for Game During Commencement

Either North Carolina or Mercer Will Furnish the Opposition—Both Have Strong Teams.

It is rumored, however, that North Carolina will furnish the opposition. N. C. Has Place on Schedule. A glance at the North Carolina schedule shows that such a game is possible. The best time for the game would be on Saturday, June 9.

It is practically assured that Tech will have a baseball opponent during commencement. The authorities of the school are planning an old-time commencement where there is something doing every minute. They want some attraction during that four days which will interest the graduates in coming back.

The senior carnival is going to be revived for sure. This will be held some time during commencement, which is considered to start on June 9 and end on June 13. And there is much talk of other stunts.

But this baseball game tops the climax. It will provide that extra stimulus necessary to bring some of the alumni back to the old stamping grounds.

Now, just who will be the opposition? Several teams are in position to play Tech. Mercer was at one time thought of as a possible opponent.

Planning for State Track Meet at Emory Saturday

Tech Is Doped to Have Strongest Team and Should Win the Meet With Emory Second.

BY HERMAN D. HANCOCK.
On Saturday afternoon the track and field teams of the state compete for the state championship on the Emory University track in the fourth Emory University State Invitation track and field meet. The lists of entries shows that the four big schools of the state are taking a real interest in the events and are putting a lot into the success and winning of the meet.

The list of entries from Piedmont college has not yet arrived at Emory, but it is certain that the college will enter a team in the meet. That will make a five-cornered game, and the host of track and field fans of the vicinity will be given an afternoon of real excitement and thrill in witnessing Georgia's best in the big meet.

The meet is almost conceded to Georgia Tech of the field events unless Piedmont brings down a whirlwind team which is not probable—that is, a team which can beat the Jackets. On the track it will be different. The Jackets will have to fight hard for every point they score, and the opinion of some observers is

that Tech will be badly beaten in the track events.

Then top, Oglethorpe still has Roberts and Ivey. Roberts did some real work in the javelin throws and weights last season. This will give even better this season. "Red" is undoubtedly the fastest dash man in the state, according to his former records and it has been nowhere said that he has deteriorated. There is a suspicion that he is growing better all the while.

Tech has Daves in the distance runs and he is good. He has been a consistent winner for the Jackets, and this season, when they need him most to win the track events, he will be right there with the goods. He has found the stride and the strike to make his competitors keep up and moving if they want to finish with him.

Howard, Kicklighter, and Kilpatrick from Georgia will support the Red and Black on the field. Of course the Bulldogs are coming with vengeance in their blood, and they will fight to the last point and score. Emory will need the support of Georgia and all the rest to put up any kind of a strong performance.

PIRATES EASE OUT WIN.

Brooklyn, N. Y., May 8.—Honus runs by Grinn and Traynor, the latter with one on, featured the victory of the Pirates in their first game of their eastern invasion. The score was 8 to 6. The Dodgers rallying vainly in the fourth inning, secured a six-run lead off Harper. The latter made his first appearance of the season and was knocked out in the fourth inning, leaving a six-run lead off Harper. "I wouldn't blame you"

TO every cigar smoker I say only this: Tell me if your first La Palina does not please and satisfy you absolutely. I know that the tobacco rolled in each La Palina contains only the richest part of perfect leaves. I know that such care is exercised in our factories that there should never be an inferior cigar allowed to wear the La Palina band.

I wouldn't blame the smoker who criticized me personally if he bought a La Palina that did not live up to all I have said about it. I am as confident of the quality of each La Palina shipped from our factories as though I had handed it to you myself. And I know you will appreciate and enjoy this quality whenever you buy a La Palina from a dealer who keeps his stock in good condition.

The mild, full-bodied flavor of La Palina is the result of an exclusive combination of fine imported tobacco. I keep on hand, in advance of manufacturing requirements, more than three and one-half million dollars' worth of this tobacco. It is cured and tested and the proper combination made in advance. The varying strengths and flavors of crops of different years are blended in exactly the proportions that produce the one flavor you recognize as La Palina.

No matter where or when you buy it, La Palina is the same—a full-bodied, satisfying, mild cigar.

Fitzgerald Gets Next State Gun Club Shoot

Cothran Again Named as President of Association. Lanier Wins First Trophy.

Columbus, Ga., May 8.—(Special.) Fitzgerald will host the 1923 shoot of the Georgia State Trap-shooting association, following the selection of the city Tuesday afternoon at the annual meeting of the organization held at the Columbus Club, which was held with a large membership present.

The election of officers of the state association for the ensuing year also took place Tuesday afternoon, and with but one exception every official was again named to fill that place. Atlanta, holding the majority of officers in the association, gained another of the members by the election of Dr. J. N. Alford as a member of the executive committee, who succeeds Mr. Ross, of Macon. The other executive committee members are Dr. J. H. McDuffie, Columbus, Fred Worsley, of Knoxville, and W. B. Harris, Atlanta.

J. B. Cothran, of Atlanta, will serve for another year as president of the state association as J. W. Stoddard, also of the capital city, as secretary-treasurer. The annual meeting of the association was held Tuesday directly after the conclusion of the shooting for the state championship in the 16-yard event.

Lanier Wins Trophy.
W. H. Lanier, Jr., of Augusta, who easily won the Maplewood shoot with 99 breaks out of a possible 100, took the first trophy shoot held during the state tournament during the evening round Tuesday, when he defeated a field of 59 shooters for the 16-yard event. Lanier's record for the 16-yard shoot was 97-97, making a total of 200. Walter Huff, of Macon, shot with 96-98 and Lanier in the number of birds smashed but since the event was on handicaps, the Augusta walked off with the cup.

Next S. I. C. Golf Tourney Will Come to Atlanta

Harris Jones, of University of Georgia, Named President With Farnsworth as Vice President.

Knoxville, Tenn., May 8.—(Special.)—With visiting golfers from Georgia Tech, Georgia, Alabama, Tennessee and Tulane already in the city, play in the first annual southern intercollegiate golf tournament, sponsored by the University of Tennessee, will begin at 9 o'clock Wednesday morning, when the first pair will tee off at the Cherokee Country club links.

Pairings for the qualifying round will be made just before play starts in the morning. Thirty-six holes medal play is the day's program, with match play starting Thursday. All the visiting golfers played the Cherokee course today, and a combination of bad weather and unfamiliarity with the going resulted in high scores.

The Cherokee course, where the Tennessee state tournament will be held in August, has a total yardage of 6,200 for the 18 holes. Two par 58 and two par 48 constitute the grand finish of the return home.

It is difficult hole.
The 18th hole is one of the most difficult of the course. A well placed drive will lie in the bowl at the edge of the woods, allowing for a second drive uphill to the green. A sliced shot will go to the woods while a pulled shot will seek the rough. A shot too full will roll past the bowl, down hill and make it almost impossible to negotiate the hole in par.

COX METHOD PROVES DEADLY FOR WEEVILS

Franklin County Farmer Tells of Good Results Secured on His Farm.

Experience of farmers throughout the state with the poison gas method of boll weevil eradication introduced by Dr. W. H. Cox, president of Cox college, is effective and practical and has many attributes lacking by other processes, Dr. Cox declared Tuesday. He was accompanied to The Constitution office Tuesday by C. B. Sewell, of Lavonia, Franklin county, who asserted that he had applied the preparation during the middle of last August, after the weevils had practically destroyed his cotton. By using the method, according to Mr. Sewell, he succeeded in raising one-half a crop, and his top crop of cotton was good. No other top crop

ton was raised in that section, he said. "If I had known of the Cox remedy and had applied it sooner, no doubt I would have made a bale to the acre," he said. According to Dr. Cox, his remedy consists of a mixture of soluble gas and soluble poison, which not only kills the weevil but penetrates the stalk and kills the grub.

WEST PEACHTREE LOT SOLD FOR \$32,500

The Georgia Realty company has sold to the United Paper company, for a consideration of \$32,500 a lot on the east side of West Peachtree street, immediately north of Alexander street, it was shown Tuesday in a compilation of property transfers issued by the Atlanta Title and Trust company. The property adjoins a lot recently acquired by the United Paper company for \$42,500. It is understood that the concern will improve the property with a large paper warehouse. The plot purchased Tuesday fronts 80 feet and runs back 132.5 feet.

Young Women Students Here On Annual Trip

Milledgeville School Graduating Class Sings at Federated Women's Meet.

Three hundred members of the graduating class of the Georgia State College for Women, located at Milledgeville, were in Atlanta Tuesday on their annual trip. They left Tuesday at midnight for Macon, where they will take part in the centennial celebration there today. They were accompanied by members of the college faculty.

Tuesday night they sang at a session of the biennial council of the Federation of Women's Clubs. During the afternoon they made an automobile tour of the city, and were guests at dinner parties at the homes of several prominent Atlantans. A score or more of the members of the college glee club sang Tuesday afternoon at The Constitution radio broadcasting station. Dr. M. M. Parks, state school superintendent, together with other school officials in Atlanta, were among those that welcomed the young women to Atlanta.

FEAR FOUL PLAY IN DISAPPEARANCE OF KIRKWOOD MAN

Fearing that her husband has met with foul play Mrs. J. A. Maloney, of 12 Trotti street, Kirkwood, Tuesday appealed to DeKalb county authorities and city detectives to use every means within their power to locate him.

Maloney, a building contractor, left his home Monday morning after receiving a telephone call from a Mr. Potter to meet him in a downtown office building. His wife was under the impression that he was to collect some money before returning home.

Maloney was 54 years old, clean shaven and heavy set, and was wearing a blue serge suit when he left the house. M. H. Phillips, attached to the solicitor-general's office in Decatur, who has been active in the search for the missing contractor, stated late Tuesday night that he had been unable to unearth any clues as to his probable whereabouts, or the cause of his disappearance.

STATE DRY AGENTS SEIZE 263 STILL OUTFITS IN APRIL

A total of 263 distillery outfits and 2,436 gallons of mash and illicit whisky were confiscated by prohibition agents in Georgia during the month of April, according to reports filed with Fred C. Dismuke, state prohibition director, Tuesday.

In addition to the number of stills and outfits, 11 automobiles and 104-223 gallons of beer, valued at approximately \$48,807.10, were seized. This report is considered one of the best yet made by the state prohibition department, in view of the fact that a large percentage of officers were compelled to appear in court during almost the entire month.

DRIVERS ASK RIGHT TO RUN JITNEYS UNTIL COURT ACTS

A petition signed by 82 jitney drivers of the city, requesting the mayor and general council to grant them permission to operate their automobiles pending the outcome of final court action to determine the legality of a city ordinance requiring them to post an indemnity bond of \$1,000, was received Tuesday by Mayor Walter A. Sims.

In the petition the drivers declare they are without means of livelihood while the court action is pending, which is working hardship upon them and their families. The mayor has taken the petition under advisement, stating he will announce his decision later, after he has thoroughly investigated it.

Miss Evelyn Greer And Her Companion Are Fined By Beall

Miss Evelyn Greer, of 92 East Ellis street, was fined \$25 and costs by Police Commissioner J. E. PROMINENT VISITORS GATHER AT BRILLIANT PRESS BANQUET; MANY SOCIAL GAYETIES FEATURE WEDNESDAY'S CALENDAR

Ladies of "Fourth Estate" Guests at Woman's Club

A brilliant occasion, and one assembling sparkling minds and clever personalities of the United States, was the press banquet given Tuesday evening in the banquet hall of the Atlanta Woman's club. This social event was of great national interest as it was started by notable women of the journalistic world, and leaders in club life, who are in Atlanta to attend the mid-biennial of the General Federation of Women's Clubs.

Pink and white flowers, combining sweet peas, spirea and roses, adorned the exquisitely appointed tables, and the place cards were hand-painted in figures of dancing girls standing on miniature maps of Georgia.

Interesting Program.

A peach blossom parade and a charming dance number were staged by Miss Anne May Coleman's pupils, featuring two little girls as brides, three as bridesmaids, and two as peaches. A cake walk in the old southern style was one of the charming features of this original evening. Miss Marion Dabney, beautiful dancer, and one of Mrs. William C. Spiker's most talented pupils, danced the cake walk. An appropriate and wonderful musical program was rendered by the Metropolitan orchestra, Buel B. Reisinger conducting. Miniature newspapers full of wit and sparkling over with fun, were delivered by a typical newswoman and there was a most original expression which brought out the most pronounced characteristics of each guest.

Three Minute Talks.

The talks were from one to three minutes each and a flute called attention to the fact that time was up by playing "Listen to the Mocking Bird." The speakers were only making and associate editors of the magazines and newspapers represented, and no speech exceeded three minutes. Snaps and pep and spirit made the banquet move swiftly and enjoyably.

The following were the speakers: Mrs. Lizzie Stringfellow Read, Mrs. Elizabeth Toombs, Mrs. Ida Clyde Burke, Mrs. William Brown Meloney, Mrs. Alvin Parker, Mrs. Raymond Brown, Miss Rose Waldo, Miss Elizabeth Brainer, Mrs. Frank Lawson, Miss Zella Armstrong, Mrs. Thomas J. Winter, Mrs. R. M. Boykin, Mrs. Alonzo Richardson, Edward Tomlinson, John R. Hornady, Platt Young, Harry Stillwell Edwards, Mrs. McCord Roberts, Mrs. W. C. Jarnagin, and Mrs. Willard Patterson.

Mrs. McCord Roberts was chairman of arrangements and her committee are the following who assisted in receiving: Mr. and Mrs. W. P. Lemon, Mr. and Mrs. Murray Howard, Mr. and Mrs. F. P. Woodcock, Mr. and Mrs. J. B. McNeely, Mr. and Mrs. John R. Hornady, McCord Roberts, Mrs. E. C. Disher, Miss Leonora Anderson, Mrs. W. C. Jarnagin, Mrs. Edward Van Winkle, Mrs. Rix Stafford, Mrs. George Ober, Mr. and Mrs. Newton C. Wing.

Distinguished Guests. The list of distinguished guests included Mrs. Thomas G. Winter, president of the General Federation of Women's Clubs; Mrs. Percy Pennington, of Texas, who is known as the greatest living woman orator and

a past president of the general federation; Miss Elizabeth Toombs, associate editor of Good Housekeeping and Harper's Bazaar; Mrs. Lizzie Stringfellow Read, editor of General Federation News, the official organ of the general federation, and managing editor of the Fayetteville Democrat in Arkansas; Mrs. Ida Clyde Burke, editorial writer for Pictorial Review and president of the Women's News service; Mrs. Raymond Brown, managing editor of The Woman's Citizen; Mrs. William Brown Meloney, editor of The Delinquent, and Miss Elizabeth Bruce, of The Ladies' Home Journal, will also be guests at the banquet.

Aside from the numerous literary lights attending upon this occasion, other noted and prominent women from different sections of the country will attend. Mrs. Mary E. Oberdorfer, who has become widely known throughout the Federated Music clubs, because of her untiring work in the promotion of good music in the nation, will attend as will Miss Alice Laker, of New York, who is managing editor of a trades paper, The Insurance.

Miss Zella Armstrong, of Chattanooga, a popular southern writer; Mrs. J. Brevard Jones, of Alabama, secretary and treasurer of the Southeastern Council of General Federation; Mrs. T. H. Curston, of William, Arizona; Mrs. Edward S. Bailey, of Illinois, and Mrs. Henry F. Pecker, of Newport News, Va., and many others.

Handsome Costumes. Mrs. McCord Roberts was gowned in gray lace, veiling silver metal cloth.

Mrs. Thomas G. Winter wore black tulle embroidered in sequins.

Mrs. J. E. Hays wore black tulle embroidered in blue sequins.

Mrs. Lizzie Stringfellow Read wore black tulle, crystal embroidered.

Mrs. Alonzo Richardson's gown was of green tulle lavender brocade metal cloth.

Mrs. Murray Howard's gown was of yellow chiffon veiling cloth of silver.

Mrs. Willard Patterson was gowned in black tulle, with overdraperies of black tulle embroidered in French flowers.

Mrs. Albert Thornton's gown was of gray Georgette crepe embroidered in sequins and veiling silver metal cloth.

Miss Zella Armstrong wore black tulle richly embroidered in jet.

Mrs. Strupper Is Honored.

Mrs. Everett Strupper, of Columbus, who is visiting her sister, Mrs. Charles C. McGhee on Fifteenth street, was honor guest at the lovely luncheon given by Mrs. McGhee Tuesday at 1 o'clock.

Snapdragons, sweetpeas, and azaleas filled handsome vases and were used to decorate the apartments. The exquisitely appointed table was graced with a silver vase of spring flowers, and encircling this were caudleabra holding pink unshaded tapers.

Mrs. McGhee wore a gown of coral crepe.

Mrs. Strupper was gowned in a model of gray crepe, elaborately embroidered in Oriental design.

Outdoor Pageant To Be Presented by Junior Music Club

A pageant will be given by the Atlanta Junior Music club in Peters park next Thursday afternoon at 5 o'clock. About one hundred junior musicians of Atlanta—members of the Junior club—will take part. It will be a spectacular event, the theme being "From Rags to Riches." There will be a king and queen, old fashioned troubadours, and dancing before the king and queen. Little Miss Jacqueline Moore will be the fairy godmother, and will also play the harp. There will be flute playing and open air music. There will also be a court jester, and a flower booth and candy booth.

Members of both the senior and junior clubs and their friends are urged to come, and are assured of a most elaborate program. The pageant is given for the purpose of raising funds to defray the expenses of the district junior music convention to be held in Atlanta June 8-9, at which time several hundred children musicians from the four states in the south Atlantic district will be entertained.

Tickets are on sale at the Calde Piano company, adults 50c and children 25c.

Day's Events Are Marked By Luncheons

Social gayeties on Wednesday's calendar would indicate that Atlanta is very eager to show the delegates of the Georgia federation how real is the spirit of hospitality here, how cordial the feeling of goodwill that the city feels for the visitor!

Luncheons, teas, dinners, and even a motor trip to Stone mountain, have all been planned to show the delegates that they are welcome and very welcome guests.

Three luncheons open the day's social events for the women visitors. The department of applied education of the general federation will be entertained at the Cecil hotel. The state presidents' club of 1914 will be honored at the Druid Hills Golf club, and at the Wincoff hotel will assemble all of the delegates from Mississippi.

Two teas for the delegates will follow the automobile ride to Stone mountain in the afternoon. The Atlanta chapter, D. A. R., will receive at 4 o'clock at Craigie house, and at 5 o'clock the members of the Joseph Habersham chapter, D. A. R., will entertain at tea at Habersham hall.

Two dinners in the evening will complete Wednesday's social affairs. The executive board of the general federation will be entertained at dinner at Atlanta's new Woman's club banquet hall by the executive board of the Georgia state federation, and the department of American citizenship will dine at the Cecil hotel.

It is a full day socially for the visitors.

Mrs. Harris to Entertain Club

The Peachtree Garden club will be informally entertained by Mrs. Arthur Harris Wednesday afternoon at 4 o'clock at her home in Druid Hills.

Mrs. Harris has a garden of unusual beauty and charm in the rear and at the side of her home, and she will entertain the members in these gardens. Should it rain Mrs. Harris extends her invitation for Friday afternoon at the same hour.

Ladies' Society Will Entertain.

The Ladies' Altar society of the Sacred Heart church will compliment the performers who took part in the St. Patrick's day extravaganza with a dance at the K. of C. club house Friday evening, May 11, from 9 to 12 o'clock.

All those who took part in the show are cordially invited to attend.

Florida Delegates To Be Entertained.

A luncheon will be given Friday at 3 o'clock at Cascade Terrace, in compliment to the Florida delegates who are attending the mid-biennial council of the General Federation of Women's Clubs.

Mrs. W. F. Melton will act as chairman hostess. Mrs. E. B. Durham, chairman of the Florida delegation, and Mrs. Hamilton Douglas, Jr., Mrs. J. B. McNeely, Mrs. T. H. Bond and Mrs. C. F. Faires will serve on the hostess committee.

Fulton High P-T. A. Meeting Postponed.

The Fulton County High School Parent-Teacher association will not meet Thursday, May 10, as announced, but will meet Thursday, May 17 instead. Officers for the next term will be elected at this time.

Mrs. E. F. White Urges Women To Back Law Enforcement

BY MAINER LEE TOLER.

Mrs. Edward Franklin White, chairman of the legislative department of the General Federation of Women's Clubs, gave a brilliant speech on "Law Enforcement" before two hundred members of this department Tuesday at the luncheon at the Cecil hotel when the legislative committee of the Atlanta Woman's club, Mrs. Victor Krieger, chairman, acted as hostess.

Mrs. White emphasized the power of woman in the vital question of the enforcement of law. She said every woman can help materially by stopping all loose talk, by using moral influence in every way possible. She said the greatest need in the cities, making for law enforcement, was to know the records of enforcement officers.

She stated that prohibition is right and is necessary and the enforcing of prohibition means the greatest good, moral, economic, political and educational life of the country.

There is no woman throughout the United States better fitted to speak on that subject, Mrs. White is deputy attorney general of Indiana and has been admitted to the Indiana supreme court.

Mrs. Howard H. McCall, secretary of the Georgia legislative council, brought greetings. She told in a con-

venient manner of the formation of the legislative council in Georgia two years ago with the backing of fourteen strong organizations. Mrs. McCall answered a number of questions which were of much value to this group of women, such as: How to get the average woman interested in the legislative council? How does Georgia finance its legislative council?

In her answers to the numerous questions Mrs. McCall proved herself one of the best informed women in the state of Georgia on legislative questions.

Mrs. E. C. Rumpel, of Indianapolis, was the next speaker. She is president of the Indiana legislative council of women and told of the effective work of the Indiana council and of its growth in influence and power, through its organized home influence, which is accomplished by having a keywoman in every county.

Mrs. Rumpel urged the women to be present at all public hearings on bills. It was interesting to note the many hands that went up when Mrs. Rumpel requested the number of states which were represented who had women members in the legislature.

In a concise and happy vein, Mrs. Emily Newell Blair, vice chairman of the national democratic committee,

Arts and Crafts Exhibit By College Park Woman's Club

The College Park Woman's club is sponsoring through Mrs. Edwin Lang, chairman of arts and crafts of the club, an artistic collection of reed lamps and baskets of all kinds, in the show window of Chamberlin-Johnson-DuRose company today and tomorrow. These were designed and made by Mrs. Lang and her class of the College Park Woman's club. There is a great variety shown, including a floor lamp with large shade in which chinchilla reeds are woven; table, boudoir and reading lamps; baskets of various designs woven of very fine reeds and pine needles combined with raffia and different fibers. Especially noticeable is a group of richly colored small baskets, also a number of trays of attractive design.

Mrs. Lang and her mother, Mrs. M. J. McAfee, are authors of "The Pine Needle Basket Book," which has had a wide circulation and which, for its artistic illustrations and comprehensive technique, is considered the best book on the subject. Mrs. Lang has another book on basketry which will soon be published.

Mrs. McAfee and Mrs. Lang originated the pine needle basket, which is one of the most interesting articles on display. They both taught basketry for 12 consecutive summers in the summer school of Knoxville.

Mrs. Lang held the state chairmanship of arts and crafts under the administration of Mrs. Lindsey Johnson and has devoted much time in teaching the wonderful art of basketry to the method of arts and crafts.

The Chamberlin-Johnson-DuRose company, in offering its show windows for this artistic display, will

materially add to Atlanta's contribution towards showing visitors to the biennial the high standard of the creative ability of Georgia clubwomen, and a cordial invitation is extended to the delegates to the council to visit the window today and tomorrow.

The list of exhibitors who are members of Mrs. Lang's class include Mrs. B. F. Ragsdale, Mrs. Frank Webb, Mrs. Oscar Palmour, Mrs. E. D. Barrett, Mrs. W. E. Lotz, Mrs. T. H. Porch, Mrs. D. R. Nesbitt, Mrs. P. J. Harlin, Mrs. K. Shuck, Mrs. J. E. Bradley, Mrs. A. M. Hughes, Mrs. E. J. Hughes, Mrs. W. A. Lassiter, Miss Pauline Trimble and Miss Lucile Mason.

Mrs. Rupert Hall To Honor Delegates.

Mrs. Rupert Hall, of Michigan and Atlanta, hostess of her state delegation, will entertain at her home on East Lake drive on Wednesday at 5 o'clock in honor of Mrs. R. Alford, of Detroit, Mich.; Mrs. Joan Bretonne, of Pierpont, Mich.; Mrs. Blah of Nile, Mich.; Mrs. G. G. Hunter, of St. John, Mich.; Mrs. Burritt Hamilton, (state director), Mrs. George Kollen, of Holland, Mich.; Mrs. Carl Mather, of Grand Rapids, Mich.; Mrs. Lillian Mathews, of Detroit, Mich.; Mrs. H. M. Robinson, Mrs. Dorian Russell, of Grand Rapids, Mich.; Mrs. Persons, Mrs. Inez Perry, and all delegates from Michigan.

Definite and Concrete Work Is Demand of Club Women

BY BESSIE SHAW STAFFORD.

"The thousands of letters and the newspaper clippings which are coming to me today prove that whenever a woman's club offers the community some definite, concrete sort of work to do, the community rallies to the club's banners," said Mrs. John D. Sherman, of Estes Park, Cal., chairman of applied education for the General Federation of Women's Clubs, one of the most brilliant and distinguished women in the country. She is in Atlanta to attend the mid-

ennial council which is convening this week.

"In looking back over the work done during the past year by my state and local chairmen and by the individual clubs which they represent, it is difficult to select one outstanding phase of achievement which I can feature in a brief interview. But freshest in my memory are the reports of Garden week, which are pouring in from every state of the union," continued Mrs. Sherman.

"Garden week was put on for the first time this year, and at the suggestion of The Garden Magazine. It has been one of the most successful efforts in the history of federation work. It appealed to people of all grades, creeds and color. It seemed to give clubwomen a concrete idea for work which would appeal to members of their family and to the community. It brought to every local club unparalleled publicity, and for seven days club and community joined hands in congenial effort.

"Arkansas leads in its wide and practical plans. The entire state responded. Splendid work was done also in the fifth district of Minnesota. I am glad to hear that Atlanta formed a garden club as the result of our Garden week."

Mrs. Sherman is one of the speakers on the Wednesday program at the morning session to be held at the T-hermole and her subject will be "Nature Study—The Foundation of Education." She is a forceful and entertaining speaker, and is a national leader among women.

Great Future for Club Work, Declares Mrs. Pennybacker

BY MARTHA GOODE ANDERSON

It is significant that the really most important women at the biennial council are the quietest. Witness the restful repose of manner and mien characterizing both Mrs. Winter, the wonderful president, and that of Mrs. Percy Pennybacker, who presided over the club at that important office.

"If women only realized the value of repose," said Mrs. Pennybacker as we found a quiet corner at the Tabernacle and talked for a few moments together while the convention proceeded and the air seemed electric with so much going on, "they would cultivate moments of quiet through-out the day. One cannot grow without solitude and the greatest blessing to a woman is that of having some quiet period during the day all to herself."

Another example of Mrs. Pennybacker's remarkable spirit is shown in the fact that as she retired from the presidency of the General Federation she assumed the office of chairman of American citizenship. "No one can be a good executive who is not willing to enter the ranks and give constructive work to the cause which she leads," she said.

Message of Service.
This is, I think, one of the most beautiful messages we have had from the biennial, for it is certainly a difficult thing for human beings to realize that "one is not the whole show," as our classic American slang expresses it, and when leaders of women, like Mrs. Pennybacker, show us what it means not only to lead, but to serve, we learn anew the meaning of the biblical saying, "He that humbleth himself shall be exalted." Mrs. Pennybacker believes so firmly in the destiny and the future of women's clubs as a ruling and tremendous force in the life of America that she will not rest until she has secured in Chattanooga, N. Y., this summer, to which club women will come from all over the country. The institute will train women to carry on club work—to be chairmen, to be members—to be officers. One of the real things in which students will be instructed is to be in the writing of minutes. I am sure we will all hail this with happiness, for minutes are apt to be a personal expression from the recording secretary rather than a record, unadorned, of the real club happenings. We all know, for we have "sat through" them.

The club institute will open the first week in July and will last for a week. Already several club presidents have signified their intention of being present. Future club proceedings will doubtless show the result. Club life in America having become of such importance as to warrant the establishing of such an institute, Mrs. Pennybacker believes that younger generations should be trained for it.

The Greatest Thing.
"The greatest thing which has come to me in all of my club work," Mrs. Pennybacker told me, "is the friendship and the understanding of women. I cannot go into any town in America where I am unknown of where hands are not reached out to me in cordial welcome and voices express some word of friendship as I see me, believe as I firmly in the future of our educated, aroused club woman," she went on, "that I see endless possibilities as to what she can do and what she will do as citizens, which we are really now of this country."

Mrs. Pennybacker has written a history of her own wonderful state, Texas, which has exhausted repeated editions. She wrote the first edition as her first son was born and the second just about the time her second son arrived, thus it will be seen that this quiet woman has been busy through every phase of life which comes to a woman.

Not only has she the gift of writing, but she has that rarest of feminine accomplishments, the gift of making a speech, as was proven in her address Tuesday night at the Tabernacle.

Miss Beatrice Teasley, of Alphonetta, Ga., will leave on May 11 with a party of friends for a motor trip through Florida. They will visit Jacksonville, Miami and Orlando.

There's Music in the Air, Says Mrs. Marx Oberndorfer

Mrs. Marx Oberndorfer, of Chicago, Ill., is chairman of the music division of the General Federation of Women's Clubs. Her slogan for the work is "Hearing America First." Her effort is to make "good music popular and popular music good."

BY MARTHA GOODE ANDERSON.
There's music in the air—American music—that is if Mrs. Marx Oberndorfer, of Chicago, Ill., chairman of the music division of the General Federation of Women's Clubs, has anything to do with the air.

As Mrs. Oberndorfer has been speaking for thirty weeks over the radio and urging her message of "Hearing America First," it looks as if she has a good deal to do, not only with music, but with the air.

Mrs. Oberndorfer is just about the most enthusiastic person at the biennial. She believes so firmly in the absolute importance of awakening American musical consciousness that she declares that the musical renaissance of the world is to come from America.

Radio Is Greatest Force.
"The greatest force in the world today," says Mrs. Oberndorfer, "is the radio. For the past two years I have been in 28 states in behalf of my work as chairman of music for the General Federation. One can readily see that there was not much chance of being at home any too often. Since the radio has been perfected, I can give my message about American music once a week over the microphone and give it better and reach more people than ever I could by traveling far and wide. Only recently I received a letter from a little town way up in the northern peninsula of Maine, in the copper district, where there are very few people, in which the writer said that the women gathered every Friday night in the undertaker's shop to hear the radio music message. It so happened that the undertaker was the only person in this village who had a radio.

Will Restore Home Circle.
"The radio is going to do two tremendous things in our American life," she said. "On the one hand, it is going to bring back home life in our big American cities by restoring the home circle which has seemed about to vanish these last few years."

"Then the radio by repeated concerts of the highest musical standard is educating a real taste for and creating a knowledge of the finest and best music."

During the war, Mrs. Oberndorfer collected all objectionable, vulgar or unpatriotic songs and music rolls and records which were eliminated from the soldiers' camps and were sent to the department of justice. It was discarded at this time that the discussion of this was a definite part of the plan of Germany to keep America a nation of jazz-loving people and to repeatedly spread the propaganda that the best music came only from Europe and the superlative best from Germany.

Love of Music Is Essential.
"The General Federation music division is trying to spread the idea that the love of music is not merely a cultural veneer," continued Mrs. Oberndorfer, "but a real and essential part of our best national life. We want to make America musical by making music a part of our daily life and by teaching that appreciation of good music is just as essential as making good music."

Wanted to Smash Pianos.
"We have had many amusing experiences in our work," she said, "that this two years ago, with the late Senator Boies Penrose, at the time that the fine arts committee of congress was about to put a tax on all American-made musical instruments. We were thoroughly aroused in our club division for, adding the tax to the cost of pianos or phonographs or other musical instruments would have been a serious handicap to homes, glee clubs and all musicians. Our division asked the piano industry of Chicago to circulate club-women. In response, we sent out 25,000 circulars in 48 hours, asking every clubwoman to write to her congressman and senator and protest against the bill. These potent grave and reverend seniors had already decided that they took the tax on pianos and chewing gum off because of women. Senator Penrose had said he wished every piano in America was smashed. At the big Pennsylvania Federation meeting a resolution was passed from the floor in which 80,000 clubwomen called upon Senator Penrose to change his opinion on musical instruments. It is interesting to note that he voted against the tax," laughed Mrs. Oberndorfer.

"We hope to make good music popular in America and all popular music good," concluded Mrs. Oberndorfer, as she went off to the Rotarians' luncheon and tell them all about it, too!

Independent Thinking.
"The question is, How soon will women yield to the allurements of canned thinking?"

Already club women may be divided into two groups. In the first are those who use the club meeting with its papers and discussions to develop the habit of reading, studying and thinking for themselves. The other group includes those who use their club connection to make others think for them. They would like to have their knowledge of current events, their opinions, served in tin cans or on records.

"They are the women who write, asking what I will charge to prepare their annual club paper for them."

Independent Thinking.
"Anyone who listens to the reports and the speeches at this week's council meeting of the General Federation of Women's Clubs must realize," continued Mrs. Oberndorfer, "how far some women have gone in the direction of clear, independent thinking. The finest message any delegate can take home to her club is the vital importance of reading, each woman for herself, of doing research work, of formulating opinions in order to develop and strengthen good mental habits. Only in this way can she become an intellectual self-starter."

"And if any woman wants to know how to cultivate the habit of thinking for herself let her run through her file of The Federation News until she finds Mrs. Percy W. Pennybacker's practical recipe for forming an opinion. It is the best antidote for canned thinking I have ever seen."

There was a time when we rushed through the supper dishes, got into our good clothes and hurried off to the theater to hear a good actor or a fine musician. Today we can enuf negligee and slippers, turn on the radio and curl up in a chair to hear

Fun and Wit Marked Meeting Of Federation 28 Years Ago

The General Federation of Women's Clubs knew how to inject some fun into its program along with its more serious work, judging from the files of The Atlanta Constitution of twenty-eight years ago.

The Constitution reprints today an amusing account, taken from the files of November 4, 1895, of a parliamentary drill, in which everybody is referred to as "lady"—all woman's organizations are "ladies' assemblies"—and which will give a pleasant insight back into the days when parliamentary drills were much more unknown than now and parliamentary law was as unfamiliar a subject to the average woman as is international law today.

FOR DRESS REFORM.
Meeting of the Ladies at the Woman's Building, Saturday.

Most Enjoyable Time It Was.
Mrs. Osgood Drills and Organizes the Women—There Was a Great Deal of Fun at the Meeting.

A Parliamentary Drill.
One of the most helpful sessions of the meeting of the General Federation of Women's Clubs, was that devoted to parliamentary drill Saturday morning.

This drill was conducted by Mrs. Etta H. Osgood, of Portland, Maine, who has had great success in training classes of women in parliamentary law.

To carry out the idea of the meeting, which was designed to be a bit serious work, an object lesson in this line, a meeting was regularly called, organized and conducted by the ladies present.

The call for the meeting was as follows:
Notice—All persons interested in correct dress are invited to meet at the assembly room, Woman's building, Piedmont park, Atlanta, Ga., U. S. A., at 11:15 o'clock a. m., Saturday, November 3, 1895, to consider the advisability of forming an international dress reform association.

Mary E. Mumford, Pennsylvania; Anna B. Howe, Iowa; Lillian C. Street, New Hampshire; Florence Howe Hall, New Jersey. At the time appointed Mrs. Osgood gave a preliminary talk on parliamentary law and briefly described the method of organizing a meeting, of making motions, of incidental and subsidiary motions. Her remarks were concise and witty and held the close attention of all.

They Have Much Fun.
Then the meeting was given over into the hands of the ladies present and was organized and conducted by them. It became a most hilarious body at once and the fun waxed fast and furious, frequently interspersed with solid information from the leader, so that much was learned in and through the fun. Every one entered into the spirit of the occasion and the wittiest little innuendo enlivened the proceedings.

Mrs. Mumford, as first signer of the call for the meeting, called the meeting to order and Mrs. Etta H. Osgood was made the chairman of the temporary organization. She thanked the ladies for "this international home" and she took her chair. Mrs. Etta H. Osgood was then made president.

Mrs. Yardley made quite a sensation by his speech on this point, pleading that men should not be shut out of such inestimable benefits.

Then in rapid succession came motions to postpone indefinitely, to amend, to commit, to postpone till next week for the previous question, to table, to adjourn, to suspend the rules, to withdraw the motion, to read papers together with objections to a consideration of the question, appeals from the decision of the chair, questions of privilege, etc. These, some sixteen in number, were all kept in straight, considered and disposed of in due order, and what seemed like a terrible parliamentary tangle was all unsnarled at the end.

The Climax of the Fun.
The climax of the fun was reached, perhaps, when Mrs. Yardley, rising to a question of privilege, asked if her bonnet was on straight. The secretary, Mrs. Merrill, amid shouts of laughter, opined that the lady's bonnet was not straight, owing to her having a bee in it, and moved

and at the suggestion of Mrs. Mumford, a committee on crepe dentals was appointed. Mrs. Yardley, of New Jersey, made the motion that the society suggested be formed, and the motion was fairly launched for discussion.

For Dress Reform.
Mrs. Florence Howe Hall made a very funny speech in which she expressed the hope that the troublesome hooks and voluminous sleeves now marting women might be reformed. Mrs. Cora Stuart Wheeler, of Bartow, aroused a storm of witty suggestion when she arose to object to the further discussion of international dress reform for women alone, unless the exclusion of the male sex was distinctly stated in the question before the house. If woman's dress was to be reformed and a universal costume adopted, why not man's?

Mrs. Hennrich, of Chicago, quoted the Breeches Bible as authority for the bloom or costume of the day. Mrs. Cheney thought men might be invited to come into the movement and later, in a very witty little speech, advocated more strongly their coming as they seemed to have conquered the question of pockets and they might help women to have pockets, which could be located, could be found, could be filled and emptied.

Mrs. Yardley, of New Orleans; Mrs. Yardley, Mrs. Millington, of Chattanooga; Mrs. Berryhill and Mrs. Boland, of Illinois, all spoke wittily and the motion to insert the word woman being carried, the movement was left open for men to share in also.

Emory Glee Club Will Sing at Barbecue

The Emory university campus is to be the scene of a delightful party on Thursday afternoon, May 10, when the Emory Glee Club will entertain a thousand or so of the women from all parts of the country who are attending the biennial council of the General Federation of Women's Clubs.

Following the trip to Stone Mountain, where the Emory Glee Club will sing, the women will drive to the Emory campus. Refreshments will be served on the lawn and the Emory T. O. T. C. band will give a concert. Those who desire to see the university buildings or to admire the beauties of the Emory surroundings will be properly escorted by members of the T. O. T. C. in uniform.

The Wesley Memorial hospital, which is sure to be of great interest to many of the guests, will be open to visitors on the afternoon of May 10. Mrs. Elizabeth Winship Bates, assisted by the executive committee of the hospital auxiliary, will cordially welcome all visitors.

The Emory Women's club tea is the only function of its kind on the federation's program. The women of Emory are glad to have the opportunity to entertain these delegates and the club will do all in its power to make the visitors' stay at Emory a pleasant one.

The officers of the club, Mrs. W. S. Nelson, president; Mrs. Samuel Gar, Mrs. H. H. Harris, Mrs. R. E. Wager and Mrs. Walter Sullivan, will be in the receiving line as well as the following women members of the Emory and hospitality committees: Mrs. Harvey W. Cox, Mrs. W. A. Chandler, Mrs. S. C. Williams, Mrs. Theodore Jack, Mrs. G. C. White, Mrs. E. H. Johnson, Mrs. F. W. Parker and Mrs. George Bachman.

Members of the university functions committee are working diligently on the matter of decorations and arrangements of tables. The committee is composed of the following: Mrs. Plato Durham, chairman; Mrs. R. C. Rhodes, Mrs. Emerick Kutschko, Mrs. W. J. Young, Mrs. Samuel Guy and Mrs. A. S. Johnson.

Mrs. W. F. Melton now has the state badges and any Emory woman desiring them should communicate with her. Emory women on Thursday afternoon will wear a state badge as well as a bit of blue and gold ribbon.

Home Economics

Exhibit Shows Woman's Work

Where is the man who says that club life has taken woman from the home? Let that scoffing come to the Baptist Tabernacle this week when the General Federation of Women's Clubs is holding its biennial session. Let him ascend the first short flight of steps, then, whether his eye turns to the right or left, there meets his vision the sign: "Home Economics Exhibit," on the right a model nursery, and on the left beyond the electric sign, the model living room, the model kitchen and filling up the alcove rows upon rows of preserves and canned products, arranged in the alcove put up by the Canning Club girls of the state.

It is dangerous for the visitor to visit the model nursery for one is tempted to linger so long that the warning note of the beginning session fits one still unenlightened as to the rest of the exhibit. In the nursery, in addition to the large framed photographs which tell of home economics activities in the state, one finds the latest equipment for the care of the child from infancy up to the age of seven or eight. Everything in domestic white betokening purity, through which should prevail, and the sense of completeness lingers. Demonstrators will be present throughout the week to show the latest kind of white betokening purity, through which should prevail, and the sense of completeness lingers. Demonstrators will be present throughout the week to show the latest kind of white betokening purity, through which should prevail, and the sense of completeness lingers.

Opposite, in room 2, is the main part of the home economics exhibit of the Atlanta Women's club. It consists of a model kitchen, a living room, and even eatables and drinkables which form a dining room are not neglected, for on the adjacent floor, cooling drinks and dainty crackers and cakes are served.

In the kitchen, where is featured kitchen equipment sponsored by this department of the Atlanta Women's club, is for sale the pride and glory of the department, "The Atlanta Women's club cookbook." Although only about a year old, it has already brought in \$8,000 for the club. In this book are embodied the results of the best work of this department, one of the largest and busiest in the United States.

The living room of this exhibit, which draws admiring "ohs" and "ahs" from all entering, is in shades of blue and tan, and forms a harmonious background for the arts and crafts work done in the vocational classes and for the artistic posters which tell the work of the department.

Prominent among these is a large blue print which by comparing the recommendations of the general federation with the actual work which this department has done shows that the local club has not only filled all suggestions, but has a large number of activities beside. Mrs. Maggie Berry, division chairman for the general federation in home economics, in commenting on this record, stated that it was a remarkable showing, and a number of club women have asked that the report be put in printed form for their use.

The beautiful hats and dresses on exhibit, which represents the work of the home economics Smith-Hughes classes in sewing and millinery, attract many admiring glances. In the last four years this department of the club has graduated over six hundred women in Smith-Hughes classes of home management, sewing, cooking, millinery and interior decorating, being pioneers in the work among club women throughout the United States.

Charts of dietetics, embodying in their message advice as to what one should eat to grow fat or thin, is emphasized by a weighing machine, which is one of the most popular exhibits in the department.

Just outside the door on the landing is an elaborate exhibit representing the work of the Canning Club girls of the state, which has reached such strength under the fostering of the state clubs working with the state agricultural college agents.

The Atlanta Women's club and the home economics department, invited every visitor to the biennial to visit its exhibits at the tabernacle.

Today's Luncheon Hostess

Mrs. Z. I. Fitzpatrick, who will act as state hostess for the State's Presidents' club of 1914, to be given today at the Druid Hills Golf club. Mrs. Percy Pennybacker, of Texas, will be honor guest of the occasion, was president of the General Federation of Women's Clubs in 1914. Mrs. Fitzpatrick is past president of the Georgia Federation and her influence on legislation was most worthy and effective. She has been interested in club extension work, and is now state chairman of the Ella F. White Endowment fund for club extension.

The Atlanta Convention Boasts of a True Heroine

The biennial body at the mid-biennial council meeting of the General Federation includes a nationally known heroine, Mrs. Edgar B. Penny, president of the Nebraska State Federation of Women's Clubs.

There are men unkind enough to say that any woman who attends an organization convention is a heroine. But Mrs. Penny does not fall in that broad class. If the Carnegie medals for bravery had been offered when she performed her feat, she would certainly have been awarded one of the precious recognitions of courage.

It all happened way back in 1888, when Mrs. Penny, then "Minnie May Freeman," was teaching school in a pioneer community, Mira Valley, near Ord, Neb. On January 12 of that year Nebraska was swept by the most terrible blizzard of its entire history. Five stock and human beings perished in large numbers. Tragedies were enacted in every community touched by the hideous storm.

Her School House. Minnie May Freeman's school house was built of sod. When the blizzard came down in all its fury, it tore the front door off its hinges. There was no way in which that door could be put back in place. Minnie May Freeman knew that if her 17 pupils remained in the defenseless building they must perish—and the nearest refuge, her boarding house, was a mile away.

Without hesitation, she placed the true situation before her terrified pupils. If they remained, there was no hope. If they fought their way through the blizzard they could reach safety.

Muffling the children in all their wraps, she formed her line, two pupils abreast, herself and a strong boy with knowledge of the way, leading, and the smaller children sandwiched between those who were older and stronger, large boys and girls closing up the ranks.

SPECIAL PARKING PRIVILEGE GIVEN TO CLUBWOMEN

Only members and guests of the General Federation of Women's Clubs will be allowed to park their automobiles during this week on Luckie street, between Cone and Barrow streets, on Spring between North and South streets, and on North and South streets, under a special order issued by Police Chief James L. Beavers for the convenience of delegates attending the convention being held at the Baptist Tabernacle.

Thanks Are Expressed By Club Hostesses For Use of Autos

Thanks are expressed by Mrs. George S. O'Leary, Jr., of the Atlanta Women's club, chairman of automobile division for the hostesses of the General Federation of Women's Clubs, for the splendid co-operation given by Atlanta women in loaning cars for delegates and visitors thus far in the convention week.

"We wish to express thanks to the ladies who are riding in street cars, in order that delegates may be carried in automobiles," Mrs. O'Leary states.

More cars will be needed Wednesday and Friday between 10 o'clock and 4:30 and 6 o'clock, the chairman states. On Thursday cars will be needed at Luckie street and North avenue at noon, to take delegates from the Baptist Tabernacle to the Druid Hills Golf club for the barbecue.

Following this event cars will proceed to Stone Mountain and back to Emory university for tea.

Beautiful Luncheon Honors Delegates From Kentucky

The Kentucky delegates to the mid-biennial council of the General Federation were beautifully honored on Wednesday at a luncheon given at the Piedmont hotel. The hostesses included a group of Atlanta women who formerly lived in Kentucky. Mrs. W. R. Ramsey was resident state chairman and Mrs. Murray Howard was co-chairman.

Mrs. Clarence Williamson, who was formerly president of the woman's club at Lexington, Ky., presided at the luncheon.

The richly appointed table was laid in the gray room and held in the center a large basket filled with silver candlesticks and alternating with silver candlesticks were smaller baskets holding blue cornflowers. The guests' places were marked by place cards suggestive of Kentucky.

Mrs. William Ramsey gave the address of welcome and Mrs. H. C. Reynolds, of Paducah, Ky., state president, responded in a gracious speech.

An enjoyable feature was the song of welcome given by the Atlanta hostesses, who later introduced themselves and told what part of Kentucky they had come from. A song without words by Mrs. Fletcher Strain, of Louisville, and played by her was enjoyed.

Mrs. W. B. Price-Smith spoke concerning the work of the Industrial School at Tullahoma. Among other speakers were Mrs. W. Woods White, Mrs. Frank Woodruff and Mrs. Abner Hord.

The delegates from Kentucky who were honor guests included Mrs. H. C. Reynolds, of Paducah, Ky., president of the Kentucky State Federation; Mrs. Dabiss, Mrs. Pilcher, and Mrs. Strain, of Louisville; Miss Ada Mae Cronwell, of Jett; Mrs. Milton and Mrs. Donnelly, of Madisonville; Mrs. Minor Simpson and Miss Simpson, of Lexington; Mrs. Quilliam, of Berea, and Mrs. J. A. Dean, of Owensboro.

Mrs. T. T. Stevens, Mrs. I. Y. Sage, Jr., Mrs. Stafford Siedell, Mrs. Earle Scott and Mrs. Mary Butt Dohls.

Everyone on the program Thursday afternoon will be a scholarship pupil or teacher. Miss Dorothy Haviv, vocal pupil of Mrs. Grace Lee Brown Townsend, will sing, accompanied by Mrs. Townsend on the piano, and Miss Santa Mueller on the violin. Misses Myrtle Libby, Georgia Mason and Ruth Brooke, pupils in expression of Mrs. Tom Brooke, will give a short sketch, and Miss Elizabeth Everett, piano pupil of Miss Dorothy Scott, will play.

The other scholarship pupils and teachers not taking part on the program are invited to be present. The meeting will be presided over by Mrs. Charles T. Phillips, president.

Atlanta U. D. C. To Have Program.

A program of unusual interest will be held next Wednesday, May 10, at 3 o'clock, at the regular meeting of the Atlanta chapter, United Daughters of the Confederacy, at the chapter house, 156 Juniper street, when the scholarship pupils of this year and their teachers will meet with the members of the chapter.

The chapter is proud of the work of its scholarship committee. The Atlanta chapter leads the whole state in the number and value of scholarships, and it has taken a young man through his last two years at dental college. Notable Art Exhibit at Woman's Club

Among the centers of interest in the city during this council week, the gallery intine at the Atlanta Women's club has much to offer. The Atlanta Art as citation working through its art chairman, Mrs. J. B. Hosmer, has arranged a collection of paintings by the southeastern artists. The paintings came from Texas, South Carolina, Louisiana, Alabama and Tennessee, a wide range of territory, and express equally varying impressions. From the grey moss hung tree and silvery lagoons of the extreme south, the summery flower embowered lagoon of the west, and the dancing blue waters of a lake that might belong to any state in the union. There are a few characteristic they all have; most are high in key—full of color—and are very direct and sincere in their statements. Most are every day aspects of nature, and reflect a joyousness on the part of the painter which is contagious.

There are several figure pictures—"Aunt Patsy," a negro woman painted by Dixie Solzen attracts the most notice, because of its vigorous handling and vivid characterization. The whole collection was first assembled at New Orleans at the session of the Southern States Art League. By special request of Mrs. Samuel M. Luman, director of the General Federation of Women's Clubs for Georgia, arrangements were made to have this exhibit on view during the gathering of club women from all over the country.

The committee of the art association in charge of the exhibit is headed by Mrs. J. B. Hosmer, formerly of St. Louis, herself an artist of fine attainments. Mrs. Hosmer has been assisted by Mrs. E. W. More, Mrs. E. K. Turner, Mrs. John Cooper and Wilbur Kurtz. The exhibition will be on view until May 17. At that time it will be followed by the exhibition of works by our local artist, Mrs. E. M. Underwood, art chairman, Atlanta Women's club.

On Monday afternoon, while the entire Women's club presented a festive scene, thronged as it was with the most notable gathering of women ever assembled in Atlanta, there was one especial part of the club where the visitors lingered. This was the art gallery, where a very charming collection of paintings by southeastern artists was on view. Here there was room to move about, and the adjoining reception room offered a quiet retreat where many visitors delighted to pause a while and converse with new-found friends or some old acquaintance. At the desk in this room Miss Clara Martin had the honor to enroll in the guest book of the art department of the Atlanta Women's club the names of very many of our distinguished visitors.

The art department of the Atlanta Women's club is a most interesting feature of the biennial session. It is a place where the art of the woman is being taught and where the art of the woman is being taught.

ENDICOTT JOHNSON

JIL-BETT

BY LAURA JEAN LIBBEY

(Continued from Yesterday.)

Only the wash of the waves answered him. The mad flames scorched his hair, his clothes, but he hurried on, calling upon her name.

As he groped his way aft, through the belching clouds of smoke, he caught the outline of a slender figure standing by the rail. He made his way to her with the utmost difficulty, realizing it was she.

"Jil-Bett!" he cried, seizing her arm, attempting to drag her by main force from the rail to which she clung with a tenacity which resisted his utmost strength. "The last boat is being lowered!"

She turned her face away from him, taking a firmer hold of the deck rail, as she wrenched herself free from his grasp.

"Go! Save yourself! Never mind me!" she commanded.

"Are you mad, Jil-Bett?" he cried hoarsely, raising his voice above the awful din and attempting to reason with her. "Moments are precious. You shall not refuse this opportunity to save your life!"

The red glare fell full upon the face she turned for an instant to him, lighting it up with a weird beauty.

"I do not wish to live—I want to die; do not try to save me!" she sobbed. "I came between you—and the girl—you love! I shall go out of your life with the vessel when she goes down. Don't stay here! Save yourself, and go back and marry the girl you love!"

"The steamer is settling, Jil-Bett!" he cried in horror. "Come! for God's sake come!"

"No, I am going to set you free," she whispered, more to herself than to him.

There was not an instant's time to lose in wading words; the great vessel was rocking like an eggshell beneath their feet. He realized, even if she did not, the warning it portended. He must get her to the opposite end of the deck.

Jil-Bett resisted all his efforts to dislodge her clinging hands from the rail with all her strength.

He was about to use all his strength, to free her clutch when she suddenly swooned forward and fell in a heap at his feet, unconscious. He seized her in his arms to retrace his steps to the opposite end of the deck; the boat in his bosom fairly stood still, as he saw that a broad pillar of fire cut off his retreat. There was not an instant to lose. He plunged through it. There was a splash—he had leaped overboard with her, striking out for the nearest lifeboat. By the greatest effort he reached it with his unconscious burden. Exhausted, he was about to sink, when strong hands reached to the rescue, and he and Jil-Bett were drawn in the lifeboat.

But not a moment too soon. With a deep, gurgling sound, the burning ocean greyhound went down, dragging with her all that was within the radius of suction down to the bottom of the ocean.

Quite as suddenly as the storm had burst it subsided. Soon after, the moon emerged from behind the clouds, looking down, pityingly, it seemed, on the small fleet of lifeboats drifting to and fro on the turbulent waters.

Jack would have given much to know if all was well with Jil-Bett. She had been drawn into the boat unconscious. He felt that if the shock had killed her, without ado they would have gently dropped her overboard to that was weighted to the water's edge, lessening the weight of the little craft.

Slowly the long night wore away, and all on board each craft hailed the coming of the dawn with outward joy and inward prayers of thankfulness. The lifeboats kept as near together as possible. The passengers bent to the oars when the strength of the sailors gave out.

The first face Jack saw, as soon as it was light enough to discern features, was Jil-Bett's. She was looking far out over the water with wistful gaze. Hers was the only one registering despair.

She did not look in his direction. If he could have read her thoughts he would have known that she was dimly wondering why he had saved her, when her death meant so much to him—freedom, love, happiness.

Jack could not help but notice how white and wan she looked in the pale gray of the morning light.

Very slowly the sun came out, bathing the waters with a glorious radiance of crimson and gold. They were grateful beyond words for the warmth it brought them. When it reached the zenith they knew it was noon.

Every heart grew anxious as the day commenced to wane. Great were their apprehensions lest night should fall ere aid came to them, for at any moment in the darkness they might be run down by a steamer crossing at that point. With great fear they watched the sun set, and the dusk creep up, deepen into twilight, and slowly settle into night.

To their consternation, neither moon nor stars were visible through the heavy black clouds that drew their sable curtains across the heavens.

The storm-tossed hand in each little boat was brave, keeping the hearts and spirits of each other up by the insurance light of another day.

must bring succor. On each and every face the strain of being without food and drink was becoming more and more visible.

Jil-Bett seldom looked in Jack's direction. He was at one end of the little lifeboat, she at the other. She felt as far apart from him as though the whole wide world divided them. She noticed that he studiously avoided glancing in her direction.

"Why did he save me?" she mused bitterly. "We are to part when this boat is picked up, and we are landed in New York. It would have been wiser to have let me go down with the sinking ship."

She felt that she had saved her, not for any kindness of feeling for her, but because she was a human being in deadly peril. He would have saved any other woman under like circumstances.

The second morning broke bright and golden over a calm sea. Every eye watched intently for any sign of a boat. Suddenly one of the sailors shouted: "A vessel in the offing!"

A cheer broke from every throat, only to die on each lip, as they saw they had not been sighted—the steamer passed on her way out of sight.

CHAPTER XXXVI.

The occupants of the lifeboats thanked God they were within the lines of the transatlantic steamer City of New York was the next to greet their strained gaze. The outlook had sighted the lifeboats some time before.

As she loomed up nearer and nearer, mighty prayers of thankfulness rent the air for their deliverance.

The work of getting them aboard was accomplished as speedily as possible. When their names were taken, he gave his own, Jay Smith; in the excitement he quite forgot Jil-Bett for the moment.

The steamer was crowded to capacity, therefore cots had to be improvised for the women from the burned boat in one of the ladies' cabins. Like accommodation for the men in the men's cabin at the far end of the boat.

Jay's mind was filled with conflicting thoughts. The great ocean steamer was speeding fast as steam could carry her to New York! The Alpha and Omega of his hopes and dreams.

The first face Jil-Bett saw as she was taken aboard was that of the stewardess of the other boat.

"Oh, you dear little lamb!" she cried, seizing Jil-Bett and cuddling her close to her heart. "I was so worried about you, until I saw you in one of the boats. How well you have stood the terrible experience."

She changed her opinion the next moment, noticing how white and ill Jil-Bett looked. She had intended questioning her as to how she reached the deck and had been rescued, but saw the girl was not equal to recounting what had taken place.

During the next two days Jil-Bett was too weak to leave her couch. The stewardess was extremely chagrined that her young husband did not inquire if she were well or ill; in fact, it seemed as if he had quite forgotten her existence.

When Hearts Command

BY ELIZABETH YORK MILLER

(Continued from Yesterday.)

This suspicion was confirmed presently by the appearance of her maid and luggage. The chauffeur and one of the porters began to strap on a couple of motor trunks; the maid, hatted and coated, put small bags, roll of rugs, umbrellas, parasols, golf sticks, and tennis racquets into the tonneau, reserving enough space in a corner of the seat to tuck herself away.

Last of all came Mrs. Egan, hatless, as usual, but encased in a big white coat and loose driving gloves. The chauffeur disposed of his cigar and touched his cap. Everything was ready. The good looking young man

Most Wonderful Winnie:—
Last week I was as one, blind, groping in the darkness. When you came into my life and lo! I was dazzled with the brilliance of your radiant self.
To-day I saw you again and I stood dumb, while my very heart went out to you. I saw you smile—oh, gorgeous one and a myriad dancing sunbeams are as darkness compared to the scintillating sunshine of your smile. And I heard you speak—oh, beloved, and the tuneful tinklings of a thousand

silver bells, the dulcet tones of the golden-voiced nightingale, the blissful babble of the tiny brook; all these are as a discord when compared to the music of your voice.
Oh, would that you would smile and speak to me some day. If I have revelled in the mere sight of you, what would I do if I could but know you and my beloved, I do want to know you, for I love you with a love as pure and exalted as heaven itself. With all my love, I am

ager stood near at hand to wish her good-by and many happy returns; the head concierge, with his upturned mustache and ready smirk, had taken command of the door of the car.

"Going away?" Ardeyne asked, a little superfluously.

Mrs. Egan looked aside at him. There was a question in that glance, but he did not know what it was.

"Yes," she said. "I'm tired of this place. I'm going home."

"To England?"

"N—no." She laughed a little nervously. "England isn't my home, really. I'm going to Kingston—Jamaica. I've just been looking up the boats, and I can catch one at Marseilles on Wednesday."

Ardeyne regarded her attentively.

She certainly had the furtive manner of one who is running away. But from what? Surely not from Hugo Smarke. It should be the other way about, if anything.

"Isn't this rather sudden?" he asked.

Carrie Egan nodded and displayed her fine teeth in a smile, the quality of which was a little uncertain. She was a mysterious creature, hinting always at subtleties which the ordinary mind is not quick enough to grasp. Here, as one might say, at a moment's notice she was flinging off to a distant portion of the world as unconcernedly—or less so—than Mrs. Carnay had taken the Villa Modestia.

"To tell you the truth, that awful little man, Smarke, gives me the shudders," she said. "Phil, you are a demon. You never let on that he was a relation of your precious Carnays and that you'd have him in tow."

I suppose he's your patient."

Ardeyne hoped that the vast relief he experienced did not show in his face. He had been wondering and worrying over the possible construction Carrie Egan might put upon his sudden appearance in the company of Hugo Smarke. Principally—if not wholly—he had worried on Alice's account. But it seemed that Mrs. Egan assumed there was no great secret. She was merely annoyed because he hadn't chosen to take her into his confidence, not dreaming that he was quite as surprised and disconcerted as she by the unexpected appearance of Hug.

"I simply feel that I must put the world between Smarke and myself," she went on. "The impertinence of his daring to speak to me! But, of course, he's mad. If anybody knows that, you ought to. Aren't you taking rather a risk in marrying the daughter? Or don't you believe in heredity?"

"To a certain extent I believe in it, of course," Ardeyne replied reluctantly. He could not discuss poor Alice with a stranger.

"Phil—the woman's voice held an earnest note that gave it an unusual quality—"Phil, don't marry her. I'm not saying this because I'm fond of you in—the way I'm afraid I am fond. It's for your good, Phil, dear, hereditarily a dreadful thing—a ghastly thing! It'll creep back on you when you least expect it and in ways you'd never dream of. You thought I was faithless to you that time—that I deliberately flouted you for Jack Burnside. Well, it wasn't true. I cared for you too much, and I was beginning to forget a terrible lesson that I ought to have learned only too well. Don't marry that girl, Phil. Surely she must have a little common sense. She must know that she ought never to marry anybody. A convent is the only place for her—if she isn't strong enough to live in the world without tempting innocent men—"

"Innocent men!" Ardeyne laughed harshly.

"I mean what I say. Yes, innocent men. Why, Phil, you of all people ought to know that some of us poor human beings are born guilty. The taint is in the blood. Born in the shadow of guilt. Your Alice Carnay is one of them."

Ardeyne shivered. What she said was true enough, according to his own stern creed. She lifted her arms in a hopeless little gesture, flashed her smile at him, then, waving an adieu, ran lightly down the steps to the car.

"Good-bye, Phil. Whatever happens, I wish you the best of luck. I shall be back in London again some time in June. Look-me up, if it occurs to you."

Ardeyne, his hat in hand, followed.

"Good-bye, Carrie, and thank you

very much. I'm sure you mean well by your advice," he said soberly.

"But you don't intend to take it! O, I scarcely expected that."

She leaned out to reward the hopes of the concierge.

"Good-bye, Phil."

The big car started with a furious roar. Mrs. Egan, at the wheel, waved a hand. Ardeyne waved his hat, the concierge smirked, and the manager bowed. There was something like mockery in the loud note of the horn as the silver car disappeared around the sharp bend.

Ardeyne turned back to see Alice standing in the doorway, a strange looking Alice, her white cheeks painted with round red splashes. His conscience stabbed him fiercely. What had she heard. Not a great deal, he was sure.

"Alice, my dear, have you finished at last?"

SPECIAL FEATURE PROGRAM AT WGM

Bowling-Smith Orchestra Will Entertain Listeners at Midnight With Delightful Variety.

It was announced yesterday on this page that listeners would be given a "jam-dinner" of a program by the Bowling-Smith orchestra at Station WGM on its weekly midnight broadcast, and this is to substantiate that statement.

Bill Smith "came through with the goods" last night and below is given a partial survey of the program that will be offered to listeners. Beginning promptly at midnight, Station WGM will sign-on and the concert will last until the repertoire of numbers given below is completed.

Supplementing the orchestra will be Mrs. J. Russell Forrester, soprano; Miss Olive Walker, dramatic soprano; and Miss Nellie Russell, reader.

The orchestra will give the following numbers:

"Don't Be Too Sure," "The Longing For You Blues," "Bea's Blues," by request, "Pick Up Your Sins," "Louisville Lou," "I'm Just a Little Blue," "Apple Sauce," "Gully Sea Eyes," "Gallagher and Shean," "L. V. Johnson, pianist, with the orchestra, will also give several piano solos, including "Kitten on the Keys," "You Tell Her, I Stutter," and "Chromatic Rag."

Noted American Club Woman Broadcasts Message From WGM

Photo by Francis E. Price.

Mrs. Thomas G. Winter, of Minneapolis, Minn., president of the General Federation of Women's clubs, who is attending the mid-annual convention at Atlanta this week, was heard by radio fans of the nation last Sunday afternoon when she broadcast a message to club women of America from station WGM, The Atlanta Constitution.

Mrs. Winter is one of the most brilliant women in America and a conspicuous figure in club women's activities. In her inspiring wireless message to women last Sunday she declared, "Club women are the salt of the earth," and implored women of America to embrace the duties devolving upon them.

It was Mrs. Winter's first radio talk.

Visiting College Girls Heard at Station WGM In Special Broadcast

Sextet and Soloists From Georgia State College for Women Entertain WGM Fans Tuesday Afternoon.

Radio fans of the nation who happened to be manipulating their sets on Tuesday afternoon from 3:30 to 4:15 o'clock tuned in a special musical program at Station WGM, The Atlanta Constitution, presented by a group of gifted young vocal and instrumental stars representing the Georgia State College for Women.

These young ladies, members of the senior class of the noted Georgia school, were in Atlanta on their annual pilgrimage to the capital city to attend the Georgia State College for Women.

Station WGM arranged the special broadcast for them.

Approximately 200 members of the graduating class of the school, only about half of the class, arrived in Atlanta via a special train at 2 o'clock Tuesday afternoon. Arrangements were quickly made for the special program and Miss Alice Lenora Tucker, musical director of the school, accompanied by the college sextet, came directly to the studio of Station WGM for the special broadcast.

It was a most delightful program in every way and the young ladies acquitted themselves splendidly, demonstrating that the musical education of the Georgia State College for Women is no small part of the training.

Miss Tucker, director, was in charge of the special program and is one of Georgia's best known women educators.

Enjoys Station WGM.
Dear Sirs: I have listened to your programs for quite a while and enjoy them very much. I would appreciate program or literature. Yours truly,

Florida Star Heard at WGM Monday Night

Mrs. H. M. Hampton Was Heard in Several Delightful Solos at WGM.

Mrs. H. M. Hampton, charming and gifted young matron of Ocala, Fla., who is attending the mid-annual council of the General Federation of Women's clubs in Atlanta this week, contributed much to the enjoyable hour's broadcast from Station WGM, The Atlanta Constitution, last Monday night. The information of the gifted vocalist preceded her to Atlanta and Station WGM, eager to present the very best talent possible, invited Mrs. Hampton to sing for listeners of the nation.

The beautiful coloratura soprano voice of Mrs. Hampton was heard in "For You Alone," "Four Leaf Clover" and other widely loved songs. She possesses a voice of exquisite beauty and sweetness and sang into her microphone a refreshing beauty and charm.

Listeners of Mrs. Hampton were fortunate in that she heartily enjoyed her vocal contributions to Station WGM's early broadcast.

Recovery of Industrials Is Seen in Stock Market

Several Issues Advance Sharply on Extensive Short Covering—Equipment Lead Rally.

DAY'S SUMMARY.
Day's total sales, 984,000 shares.
Twenty industrials averaged 96.54; net gain, 1.13.
High, 1923, 106.28; low, 95.11.
Twenty railroads averaged 81.55; net gain, 1.18.
High, 1923, 90.63; low, 80.37.

New York, May 8.—Indications that the stock market had been oversold by professional speculators for the decline were seen today in the quick recovery from recent weakness of several popular industrial stocks. But "inside interests" in the early dealings resulted in extensive short covering which carried a number of the leaders 1 to 5 points above yesterday's closing prices.

Bear traders made another last hour attempt to unsettle the list by throwing overboard a large volume of domestic oil shares, using the cut in Louisiana crude oil and the relatively poor 1922 income statement of the Pacific Oil company as excuses for selling pressure. Early gains were reduced in many instances but the general level of prices was higher than the previous close.

Equipment led the initial rally. American Locomotive was pushed up nearly 3 points to 132, slipping back later to 130.24 and Baldwin closed 2.8 points higher at 123.18 after having touched 125. Pullman was up four at 121 and General Electric up 3 at 119. The short interest in these shares was reported to be unusually large. Rubber and tire sales also moved upward in the face of another cut in crude rubber which carried it to the lowest price of the year, United States Rubber, Kelly-Springfield and Goodrich each closing about a point higher.

Strength of rail shares was accompanied by reports of several voluntary consolidations and announced in the next few months and increased foreign demand for these securities. Gains of 1 to 3 points were recorded by New York Central, Atlantic Coast Line, Canadian Pacific, Great Northern preferred, Delaware and Hudson, Frisco, St. Louis and Southwestern preferred, Reading, New Haven and Louisville and Nashville.

Among the active industrials which closed 2 to 4 points above yesterday's final figures were American Woolen, DuPont, Eastman Kodak, Beecham Packing, Associated Dry Goods, Bosch Magneto, Kelsey Wheel, Nash Motors, United Drug, Crucible Steel and Cuba Sugar preferred.

Stearns-Warner opened more than a point higher, then broke 5 points to 70.14, or within 1.2 point of the year's low and 45 points below the year's high, and finally snapped back to 84.14, up 2.4 on the day. The recent reaction on this issue was described as a bear raid in an official statement of the company. Union Bag also was conspicuously weak, dropping six points. Virginia-Carolina Chemical issues were heavy in financial dealings. One block of 10,000 shares of Corden changed hands at 46.24.

Call money opened at 4.34 per cent and dropped to 4.12 in the early afternoon, closing at that figure. Trading in the time money market was quiet with occasional loans arranged at 5.14 per cent for the short-term maturities. There was a good demand for commercial paper, prime issues being unchanged at 5 and 5.14 per cent.

Demand unchanged created a new low for the year at 84.01 1/4, off 1.2 cent. French francs improved slightly to 6.33 cents. New York exchange fell, in further reflection on the financial troubles of that country. Changes in other currencies were narrow and irregular.

Volpi Sponsors LATE BROADCAST

Trio of Gifted Pupils of Noted Atlanta Teacher Heard on 9:30 to 10:30 Program.

Signor E. Volpi, Atlanta coach of opera and teacher of voice, sponsored Station WGM's Tuesday night 9:30 to 10:30 program, presenting a trio of his advanced pupils in one of the most enjoyable radio broadcasts heard from this station in many months.

Mrs. Audrey Mae Harrison, lyric soprano, and Thomas Dendy and Rudolph Lehman, baritone, shared the vocal honors with Signor Volpi, playing the piano accompaniment.

Mrs. Harrison's unusually sweet and highly trained lyric soprano was never so beautiful as in her vocal contributions to the late Tuesday night broadcast. In "Forgotten," "Sunrise and You," "Sing Me to Sleep" and others, the flute-like purity of voice was splendidly displayed and its richness and excellent training as equally emphasized. Mrs. Harrison, always a popular favorite with fans of this station, added to her host of admirers last night.

Thomas Dendy, the gifted Atlanta baritone whose voice was highly praised by Beniamino Gigli of the Metropolitan Grand Opera company, and Rudolph Lehman, sensational young baritone, shared honors with Mrs. Harrison on the 9:30 to 10:30 offering. These splendidly trained young vocal stars enjoy enviable popularity with music lovers of the nation and are in the front ranks of radio entertainers in America. The depth and richness of Dendy's voice was marked, while the quality and mellowness of Lehman's voice was equally as cotable.

It was an unusually enjoyable program, thanks to the splendid arrangement by Signor Volpi, and listeners will welcome the news that Signor Volpi has returned from his vacation and will sponsor three programs each week for fans of Station WGM, the south's "old reliable" broadcasting station.

Dear Sirs: I receive all of your radio converts. They come in very clear—modulation fine. Yours truly, RONALD MARTIN, Des Moines, Iowa, Operator.

"Heard and Enjoyed"
Dear WGM: Your last night's program was heard and enjoyed it very much. Hope to hear your station again.

Several Industrials Also Show Recovery in Prices; Cuts in Prices Have Little Effect.

New York, May 8.—Most of the oil shares and several industrials made good recovery in today's curb market, from recent heaviness. Additional cuts in Wyoming and Louisiana crude oil prices resulted in another attempt to unsettle the oil shares by bear traders but they made little headway. Standard Oil of Indiana was forced down to 50 1/4. Kentucky yielded fractionally but Prairie Oil and Gas advanced 3 points and Continental, Imperial of Canada, Manzanillo and Prairie Pipe closed 1 to 2 points higher.

Salt Creek and Mountain Producers advanced fractionally on the announcement of a distribution of shares of the New Bradford Oil company held in their respective treasuries.

Glen Allen Coal, which dropped 2 1/2 points to 34 and then rallied to 70, was the outstanding weak spot of the industrial group. Durant Motors continued under pressure, closing 1 1/2 lower at 49 1/2 after having received a point below that figure. Midland Steel advanced 1 1/4.

Small and unimportant changes characterized the trading in mining shares.

COMPLETE SURVEY OF WORLD COTTON

Department of Commerce Publishes Summaries for Eight Months Ending March 31.

Washington, May 8.—The department of commerce has now completed, through its domestic and foreign staff, working in co-operation with the department of agriculture, a world cotton survey for the eight months ending March 31, 1923. Similar summaries were published in commerce reports of May 8 and November 13, 1922, and February 12, 1923.

World's Supply and Distribution of Cotton.
(478-pound bales) with 10,000,000 bales.

	American bales.	All kinds bales.
Stocks, Aug. 1, 1921	9,351,000	14,752,000
Production, 1921 (1)	7,954,000	14,741,000
Total supply, 1921-22	17,305,000	29,493,000
Consumption, 1921-22	12,293,000	20,047,000
Stocks, July 31, 1922 (2)	5,123,000	9,536,000
Production, 1922 (3)	9,337,000	17,755,000
Total supply, 1922-23	15,060,000	27,291,000
Consumption, 1922-23	10,000,000	15,281,000

(1)—This represents actual crops except in China where the cotton that enters into household consumption is estimated on the basis of being of little commercial interest, and in India, where an allowance of 375,000 bales of 478 pounds net weight has been subtracted as of household consumption.

(2)—Total compiled from stocks reported in different parts of the world. The apparent stocks as of July 31, 1922, arrived at by deducting the consumption from the total supply, were 5,012,000 bales of American and 9,540,000 bales of all kinds of cotton.

(3)—Includes the "city crop" and cotton coming into the United States from foreign countries which loses its identity and goes into consumption as American cotton.

U. S. Bureau Reports Decrease in Crop Of Winter Wheat

Washington, May 8.—A winter wheat crop of 578,287,000 bushels or 1.4 per cent less than the 1922 crop was forecast today by the department of agriculture.

The forecast of winter wheat production in southern states follows: Virginia 9,945,000 bushels; North Carolina 5,837,000; South Carolina 4,829,000; Alabama 212,000; Mississippi 30,000; Arkansas 882,000.

The forecast was based on the condition of winter wheat on a condition of 7.0 per cent of a normal and on the area remaining May 1 to be harvested which was 73,500,000 acres or 6.629 of a normal (14.1 per cent) less than planned for autumn.

A type crop of 73,500,000 bushels on the May 1 condition of 8.1 per cent of a normal, and hay crop of 100,533,000 tons on a condition of 87.0 per cent of a normal and an area of 76,031,000 acres also were forecast.

Stocks of hay on farms May 1 are estimated at 13,480,000 tons or 12.0 per cent of a normal.

Condition of pastures was 77.0 per cent of a normal.

Spring plowing was 63.9 per cent completed and planting was 55.4 per cent completed to May 1.

Coffee.
New York, May 8.—Coffee futures closed: May, 9.05; July, 9.35; September, 9.55; December, 9.85.

Coffee futures were reported in fair demand with Rio 74 quoted at 11.15 and Santos at 14.65. The Santos market was unchanged to 17.50 for lower Brazilian port receipts, 8.00; Jumbilla, 8.00.

"How are times here now?" asked the recently-arrived guest, "Slower" replied the landlady of the Peninsula tavern. "Why, actually things are so dull that the barbers in the Palace Tonsorial parlor have taken to the mandolin again."—Kansas City Star.

Portraits of Theodore Roosevelt now adorn thirty-five armories throughout New York state.
